

To: MARRS Management Council

From: Ellen Wernicke, Kansas Co-chair MARRS Technical Committee
Ed Brundage, Missouri Co-chair MARRS Technical Committee

The MARRS Technical Committee requires that any radio purchased for public safety use on the MARRS system must be **capable** of the following features:

- Approved by P-25 Compliance Assessment Program (CAP)
- P-25 Phase 2
- 700/800 MHz
- Multi-Key
- AES
- Over The Air Rekeying (OTAR)

The radios do not need to be ordered with these features installed, but must be capable of them for programming at a later date.

This requirement will be effective beginning July 1, 2016.

Approved by the MARRS Management Council on June 21, 2016
