

WHAT IS HOUSEHOLD HAZARDOUS WASTE?

Household hazardous waste (HHW) includes household cleaners, lawn and garden products, automotive fluids, paints and paint-related products, and other common products.

Signal words such as **DANGER**, **WARNING**, or **CAUTION** are required on the labels of hazardous products. These products are hazardous because they contain chemicals that are corrosive, explosive, reactive, flammable or toxic.

ABOUT THE HHW PROGRAM

The Regional HHW Collection Program provides convenient access to proper HHW disposal for all district residents. **The MARC Solid Waste Management District encompasses Cass, Clay, Jackson, Platte and Ray counties in Missouri.** Residents of participating communities (at right) may take HHW products to the permanent collection facilities in Kansas City, Mo., and Lee's Summit at no charge. Proof of residency is required.

Residents of participating communities may also drop off HHW products at any of the mobile collections held throughout the year. A schedule of the 2011 HHW events is on the back of this brochure. A disposal fee is charged per vehicle for residents of non-participating communities.

If you live within the MARC Solid Waste Management District and your city or county is not participating in the program, please contact your city council or county commission.

For more information about this program or other solid waste issues, call 816/701-8226.

PARTICIPATING COMMUNITIES*

2011 Regional HHW Collection Program

Belton • Blue Springs • Cleveland
Excelsior Springs • Garden City • Gladstone
Glenaire • Grain Valley • Greenwood
Harrisonville • Independence
Kansas City, Mo. • Kearney • Lake Lotawana
Lake Tapawingo • Lake Waukomis
Lake Winnebago • Lee's Summit • Liberty
Loch Lloyd • Lone Jack • Parkville
Platte City • Pleasant Hill • Pleasant Valley
Raymore • Riverside • Smithville
Sugar Creek • Weatherby Lake
Unincorporated Clay County
Unincorporated Jackson County
Unincorporated Platte County • Weston

**County participation includes communities with populations under 500.*

MISSOURI PERMANENT COLLECTION FACILITIES

	CITY of KANSAS CITY, MO. 4707 Deramus (just south of the Chouteau Bridge in the east river bottoms) 816/513-8400	CITY of LEE'S SUMMIT, MO. 2101 SE Hamblin Rd. (at the Lee's Summit Resource Recovery Park) 816/969-1805
HOURS	No appointment required (<i>effective 7/2011</i>). Thursday, Friday 9 a.m. to 6 p.m., Saturday 9 a.m. to 4 p.m.	Appointment required. Open on first Saturday of the month, 7 a.m.–Noon; third Wednesday of each month, year round, 2–6:30 p.m. (paint only on Wednesdays). 100-pound limit per visit.
WHO	No charge for residents of Regional HHW Collection Program participants. Must bring ID with proof of residency.	No charge for residents of Regional HHW Collection Program participants. Must bring ID with proof of residency. A disposal fee is charged per vehicle for residents of non-participating communities.

FREQUENTLY ASKED QUESTIONS

Why should I bring HHW to a facility or mobile event?

Proper disposal of HHW protects our waterways, protects trash haulers from exposure to dangerous materials, lowers the risk for fire hazards, avoids potential poisonings, and reduces illegal dumping.

Is there a limit on the amount of material I can bring?

While mobile events do not have limits, consider using a facility if you have a substantial amount of HHW. The KCMO facility has no limit; the Lee's Summit facility has a 100-pound limit per visit.

Do I have to make an appointment for mobile events?

No, appointments are not required for mobile collection events.

Why do I have to make an appointment at the facility?

HHW includes combustibles and highly toxic substances; for safety reasons, facility staff needs to attend to each visitor individually to ensure proper handling and disposal of materials. Scheduling a drop-off appointment saves time by allowing staff to prepare for accepting visitors' materials.

Is there a limit to the number of visits I can make to the facility or events?

No — residents in participating communities can visit any of the events or either facility in the regional program as needed. For safety purposes an appointment is required at the facilities.

I can't make it to the event the day it's in my community — what can I do?

This program offers year-round service. Residents can attend any of the mobile events or visit the two permanent facilities.

2011 HHW Mobile Collection Schedule

April 2: Independence	9 a.m.–1 p.m.
April 16: Blue Springs	8 a.m.–Noon
April 30: Jackson Co./Grain Valley	8 a.m.–Noon
May 14: Harrisonville	8 a.m.–Noon
June 4: Gladstone*	8 a.m.–Noon
June 25: Belton	8 a.m.–Noon
August 13: Platte County (w/ Weston & Platte City)	8 a.m.–Noon
August 27: Pleasant Hill/Raymore*	8 a.m.–Noon
September 10: Kearney	8 a.m.–Noon
October 1: Southern Platte Co.* (w/ Riverside, Parkville & Platte Co.)	8 a.m.–Noon
October 22: Liberty	8 a.m.–Noon

*ABOP collection event (only **A**ntifreeze, **B**atteries, **O**il and **P**aint are accepted)

Mobile events are open to all communities.

Business waste is NOT accepted.

2011 regional HOUSEHOLD HAZARDOUS WASTE collection program

How to safely use, store and dispose of HOUSEHOLD HAZARDOUS WASTE

Re•think Re•do Re•new

Mid-America Regional Council
Solid Waste Management District

Like most area residents, you probably have **dangerous products** in your home.

Maybe it's the **drain cleaner** under the sink.

Maybe it's the **motor oil** in the garage.

It could even be the **paints** and **pesticides** in your basement.

Each year, thousands of people are injured by products in their homes. **Hazardous products cause poisonings, severe burns, illness, blindness and even death.** Though usually safe when used according to label directions, these products can become dangerous when people are unaware, or forget, that they are handling hazardous products.

Improper use, storage, and disposal are dangerous and expensive. Metropolitan communities are working together through the **Regional Household Hazardous Waste Collection Program** to make our homes and neighborhoods safer. Learn more about how you can help.

What Can YOU Do?

Read labels carefully. Avoid buying products with labels containing the words danger, warning, flammable, explosive, corrosive, caustic, toxic or poison.

Use safer alternative products whenever possible.

Recycle or reuse hazardous products. Share what you cannot use with a neighbor or friend. Recycle what can be recycled in your area.

Buy only as much as you need for the job at hand.

Properly dispose of HHW at a mobile collection event (see schedule) or a permanent facility.
