

# MAKE HOME IMPROVEMENTS THAT ARE GOOD FOR YOUR WALLET AND THE PLANET.

## Have you considered how much you can save with ENERGY STAR enhancements to your home?

For example, upgrading to an ENERGY STAR furnace and air conditioner could save you \$1,000 on heating and cooling bills over five years. Use the equity in your home to not only improve its value, but also its efficiency.

Get a low-interest rate home equity loan to make all the energy-efficient improvements you want through the MARC Home Remodeling Loan Program from Mid-America Regional Council (MARC) and CommunityAmerica Credit Union. This program offers low rates, flexible terms and loan amounts from \$5,000 to \$30,000. It's good for you and our planet.
