FEATURES SPECIFICATIONS REVIEWS ACCESSORIES

MPEG4 Video Recording

SteadyShot® Picture Stabilization System

Picture stabilization system that uses motion sensors to detect and compensate for camera "shake" without compromising picture quality like some other digital stabilization systems.

LITHIUM Ion Battery System²

1/2.5" CMOS Imager

Providing great detail and clarity along with outstanding digital video performance.

2.4" SwivelScreen™ LCD Display³ (112K Pixels)

Provides stunning viewing clarity with improved resolution. The high resolution 123K pixel LCD screen rotates up to 270 degrees for multiple viewing angles providing sharp, detailed images for monitoring or playback.

4X Digital Zoom

The Precision Digital Zoom usesx interpolation allowing the digital zoom to be clearer, with less distortion than previous types of digital zooms.

USB Streaming⁵

Stay connected to family and friends by broadcasting live video with audio over the internet using the USB¹ interface. You can even playback your favorite recorded scene on the camcorder's tape. It's like having your own video conferencing system.
