

**MARCH 2008 Non-Emergency Medical Transportation Directory for the
Kansas City Region**

In 2008, the Regional Health Initiative at the Mid America Regional Council researched transportation options available for the uninsured, medical underserved, and Medicaid population. As result of the research, this non- emergency medical transportation (NEMT) directory was created. This directory is a resource guide for the uninsured, medical underserved, and Medicaid population. Please call the operating transportation services for full details of services offered. For questions relating to the directory, please contact Traci Rowland at trowland@marc.org.
