The co-sponsors have pledged to work cooperatively with the Missouri Department of Transportation throughout this project. The purpose of the project is to provide a safe 3,168 LF. shared use path connection over I-435 that will provide a transportation connection to neighborhoods, schools, shopping areas and transit facilities in the area. The enhancemnet dollars would specifically be used for the section over I-435 the co-sponsors will provide the matching funds to complete the remaining portion of the project(see project map, detailed map and Bannister Bridge section). This project is a critical link in the 6th District Pedestrian Intermodal Transportation Connector (Trails) Plan which is under planning and design. This study will identify the exact alignment of trials through the 6th District in Kansas City including the 3-Trails Metrogreen Corridor, the Martin City Connector along the Blue River, a connection to the 85th and Manchester Historic Swales, a connection to the jeffers Transit Station at Red Bridge and the Kansas City connection to the Katy Trail extension.
