AGENDA

1. Welcome and Introductions. – 5 min.

2. MARC Updates – 5 min.
   - Green Infrastructure Policy Workshop – Sept 26, 8am – 12pm
   - Planning Commissioner Training
     i. ULI UrbanPlan for Public Officials
     ii. MARC Survey

3. “Mobility Hub Workgroup Outcomes” – 10 mins.
   - **Presenter:** Laura Machala, MARC

   - **Presenters:** Drew Stiehl, MARC (brief intro)
     Thomas Morefield, BikeWalkKC
     Joe Blankenship, City of Kansas City Planning Department

5. Roundtable Discussion, 20 mins.

6. Next Meeting
   - Friday, December 14th, 2018 at 1:30 pm

**Special Accommodations:** Please notify the Mid-America Regional Council at (816) 474-4240 at least 48 hours in advance if you require special accommodations to attend this meeting (i.e., qualified interpreter, large print, reader, hearing assistance). We will make every effort to meet reasonable requests.

**Getting to MARC:** For information on transportation options to the MARC offices, including directions, parking, transit, carpooling, and bicycling, visit [http://marc.org/mapandparking.htm](http://marc.org/mapandparking.htm). If driving, visitors and guests should enter the Rivergate Center parking lot from Broadway and park on the upper level of the garage. An entrance directly into the conference area is available from this level.
Thanks to strong participation in the region, a set of policies and strategies have now been prioritized for a comprehensive regional green infrastructure approach. Join us for the second of two policy workshops to provide your insight on how the regional Green Infrastructure Framework may facilitate policy development.

Green infrastructure, as defined in MARC's Green Infrastructure Framework, includes not only stormwater management but also integrated, nature-based infrastructure solutions that provide multiple benefits and help solve community challenges. The Green Infrastructure Framework and Playbook are designed to help communities identify priority places for holistic green infrastructure. Both include site-based strategies that address ecological health and offer guidance on how to connect diverse stakeholder groups and improve the delivery of community and infrastructure services.

The current phase of work is to identify key policy that will assist the governments and organizations in different watersheds to work together towards a common purpose of greater health and resilience. Our first policy workshop prioritized policy. This workshop will reveal pathways for implementation and adoption.
Who should attend:

- Elected leaders
- Municipal department directors
- Civil engineers
- Watershed associations
- Developers
- Public health project managers
- Parks and recreation project managers
- Environmental conservation and restoration organizations
- Educational institutions (K-12 and higher education)
- State Departments of Transportation
- Transit organizations
- Community development organizations and neighborhood leaders

For questions about this workshop, contact: Tom Jacobs, 816-701-8352 or Alecia Kates 816-701-8233.
