Kansas City Data Collective (KCDC)
March 8, 2017, 2:00 – 3:30 PM
Mid-America Regional Council
600 Broadway, Suite 200, Kansas City, MO 64105
Heartland Room

Agenda

2:00 – 2:05  Introductions

2:05 – 2:10  Review of January Meeting Minutes

2:10 – 2:30  Mike Dittermore. Update from LACIE.

What the extracts would include (data elements), how complete it will be, process for doing that; HIPPA considerations; which hospitals are currently enrolled (overview of the region); status of HIPPA control units in hospitals currently enrolled, and future plans.

- List of available data collected from medical records: i.e. vitals, social determinants (if any), risk factors, screenings or preventive medicine, etc.
- How is data cleaned (i.e. duplicated data)
- Data from other providers (physician offices, etc)?
- Provide a list of all providers in the 1.0 and 2.0 versions
- Provide an explanation of implementation fees and cost structure
- How many people/organizations could access the data in the cost structure he provides for the Data Collaborative approach?
- How many data points (LACIE calls them “concepts”) are available in the cost structure provided?
- Provide an explanation of how a group like the KCDC would access the data and what HIPAA challenges that would present vs. having one organization being accountable for accessing the data
- What is the typical implementation time frame?

2:30 – 2:40  other questions from members

2:40 – 2:50  Update on the Maternal and Child Health Report

2:50 – 3:20  Proposed projects for 2017:

- Selection of Social Determinants of Health Indicators for the region (subcommittee work?)
• Life Expectancy project for the metro area
• Future review/research project of main causes of death in metro area: risk factors, contributing factors, etc)

3:20 – 3:25 Review updated MARC website for KCDC
http://marc.org/Community/Public-Health/Kansas-City-Data-Collective/About-KCDC

3:25-3:30 Other announcements
