Attachment 6.1: Hazard Mitigation Planning Committee (HMPC) Members Roles and Responsibilities
Attachment 6.2: 2020 Participating Jurisdictions’ Designated Responsible Parties
Section 6: Plan Maintenance

Requirement  §201.6(c)(4)(i):  The plan maintenance process shall include a section describing the method and schedule of monitoring, evaluating, and updating the plan within a five-year cycle.

6.1 Monitoring, Evaluating and Updating the Plan

This plan will be reviewed and evaluated annually or following a disaster to determine the effectiveness of mitigation actions; reflect changes in laws, regulations and/or policies; reprioritize mitigation actions, if necessary, and consider other issues affecting hazard mitigation in the Kansas City metropolitan area. The Metropolitan Emergency Managers Committee (MEMC) has included this review as part of its annual work program. The MEMC covers the five counties included in this plan in addition to three Kansa counties – Johnson, Leavenworth and Wyandotte. Beginning in 2021, the MEMC will review both the plan adopted for the three Kansas counties and this Plan for updates. The Hazard Mitigation Plan Committee will meet with Kansas representatives to discuss preparing an integrated plan for the bi-state metro area in 2025.

The MEMC/Planning Team, in accordance with the roles and responsibilities outlined in Attachment 1, will be responsible for coordinating annual reviews of the plan for their represented jurisdictions. The annual review process shall include an evaluation of the plan’s effectiveness for the area. Criteria used to evaluate the plan includes:

- The goals and objectives address current and expected conditions
- The nature, magnitude and/or types of risk have changed
- The current resources are appropriate for implementing the plan
- There are implementation problems, such as technical, political or legal or there are coordination issues with other agencies
- The outcomes have occurred as expected
- The agency and partners participated as originally proposed

During these reviews, mitigation goals and actions will be reevaluated and updated to reflect current status as appropriate. Jurisdictions wishing to add new mitigation goals and actions will work with the Planning Team/MEMC to determine steps necessary to incorporate changes into the adopted 2020 Plan. Those jurisdictions submitting new goals and actions should develop a planning process narrative in accordance with the requirements for mitigation strategies outlined in this plan. The narrative should be submitted to the jurisdiction’s respective Planning Team member for review, who will forward to MARC for formatting and incorporation into this plan. MARC will continue to provide administrative support in accordance with the roles and responsibilities of Plan Author as defined in Attachment 6.1.

In order for mitigation efforts to become more fully incorporated into regional planning efforts for the Kansas City metropolitan area, the review of the Hazard Mitigation Plan, and the mitigation strategies will be included in the annual work plan for the Metropolitan Emergency Managers Committee. The Metropolitan Emergency Managers Committee, a committee coordinated by Mid-America Regional Council, serves as a forum for local emergency managers to discuss and resolve regional issues, problems, projects and activities related to all-hazards emergency management.
For this update, participating jurisdictions appointed a responsible party to act as a central point of contact and coordinate the update process for their community. These individuals are listed in Attachment 6.2. During the yearly reviews, MARC will contact these individuals and ask for their review and update of information about their jurisdiction. For each action proposed by the participating jurisdiction there is a “Primary Agency Responsible” designated for implementing mitigating goals and actions. These agencies shall provide the status of their mitigation projects to their community’s responsible party, as listed in Attachment 6.2. If a community’s responsible party changes, they are asked to notify their Planning Team/MEMC representative of the change.

Every five years, the Planning Team/MEMC will conduct a comprehensive review of the Regional Multi-Hazard Mitigation Plan and document the actions taken, changing conditions regarding the risks faced by the region from natural hazards and revisions to hazard mitigation actions representing a full update to the plan. The model used for this update process will continue to be used for future updates; the roles and responsibilities outlined in Attachment 6.1 will be maintained. The following generic timeline should be used to guide the five-year plan update process. All dates are listed as time remaining (T-) until plan expiration:

**T-22 months:**

1.) **MARC:** Notify Planning Team, participating and potential new jurisdictions of upcoming update process.
2.) **MARC:** Request authorizations from MEMC and MARC Board and/or participating jurisdictions for MARC to act as Plan Author on jurisdiction’s behalf (if desired).

**T-21 months:**

1.) **MARC:** Apply for grant funding through SEMA.
2.) **MARC/Planning Team:** Confirm participation requirements, desired updates, changes in regulations. Begin full review of plan. Set kickoff meeting dates and times.
3.) **MARC/Planning Team:** Begin collecting contact information for all potential jurisdictions and organizations to ensure that all potential participants receive the initial invitation to be involved.

**T-19 months:**

1.) **MARC/Planning Team:** Complete full review of plan, confirm required updates
2.) **MARC:** Begin research on any changes to the hazard profiles and recent hazard events. Create materials for kick off meetings.
3.) **MARC:** Begin advertising meeting dates and times for participating jurisdictions and other parties interested in contributing to the update process.

**T-16 months:**

1.) **MARC/Planning Team/Participating Jurisdictions/Other interested parties:** Begin kickoff meetings to review process for update, review historical and recent occurrences of the various hazards, and review data collection and plan participation requirements. Hold follow-up meetings as necessary.
2.) **Participating jurisdictions:** Begin submitting required information about hazard risks and capabilities (Community Profile information) to MARC.
3.) **MARC:** Analyze and assess the information received through the Community Profile submission. Develop materials for public meetings to explain hazards and the capabilities on hand. Incorporate information received into draft update.

**T-14 months:**

1.) **MARC/Planning Team/Participating Jurisdictions:** Advertise and conduct 1st round of public meetings.

**T-12 months:**

1.) **Participating Jurisdictions:** Status report on past mitigation strategies and development of new mitigation strategies. Participating jurisdictions and organizations will consider the hazards that are likely to impact their constituents and the tools/capabilities available to address the hazards and they will create goals and actions to continue building upon the capabilities already in place.

2.) **MARC:** MARC staff will collect the mitigation strategy information for past and future goals and actions and incorporate the information into the draft update.

**T-8 months:**

1.) **MARC/Planning Team/Participating Jurisdictions:** Advertise and conduct 2nd round of public meetings/public input opportunities.

**T-6 months:**

1.) **MARC:** Complete first draft, submit to Planning Team for review and approval
2.) **Planning Team:** Review/Approve first draft

**T-5 months:**

1.) **MARC:** Submit first draft to SEMA.
2.) **MARC:** Make corrections to draft.
3.) **MARC/Planning Team/Participating Jurisdictions:** Advertise and conduct final public review and comment period.
4.) **Planning Team:** Review/Approve corrections to draft.

**T-3 months:**

1.) **MARC:** Submit final draft to SEMA for forwarding to FEMA
2.) **MARC:** Make any corrections from FEMA. Submit to Planning Team for review/approval and resubmittal to FEMA.
3.) **MARC/Planning Team/Participating Jurisdictions:** Once FEMA approves, participating jurisdictions adopt by formal resolution, and forward to FEMA.

A number of data deficiencies were identified through this update to be addressed prior to the next update to extent possible –pending available information. Table 6.1 identifies these deficiencies,
These data deficiencies are from the 2015 Plan. The list must be evaluated, and deficiencies can be added or deleted. If progress has been made on a data deficiency, the status should also be updated in Table 1.2 in the Introduction and Planning Process section.

<table>
<thead>
<tr>
<th>Data Deficiency</th>
<th>Action to Be taken</th>
<th>Responsible Party</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Dam inundation pathways still in process of being shared with local officials or not yet available</td>
<td>Continue to work the MDNR and local dam owners to obtain information/maps showing dam failure inundation pathways as part of EAP update/completion process</td>
<td>Planning Team</td>
</tr>
<tr>
<td>2. Levee failure analysis information largely unavailable</td>
<td>Continue to work with USACE and other entities to obtain levee failure analysis information as it becomes available</td>
<td>Planning Team</td>
</tr>
<tr>
<td>3. Future land use data unavailable for Ray County</td>
<td>Incorporate future land use maps for Ray County as developed</td>
<td>Ray County Planning Team representative, MARC</td>
</tr>
<tr>
<td>4. Various data collection/interpretation deficiencies were noted for winter weather, heat wave, drought, HazMat and infectious disease due to certain inherent limitations</td>
<td>Continue to reassess hazards and data collection methods for next update. As new collection methods and interpretation techniques become available, incorporate into plan update</td>
<td>Planning Team, MARC</td>
</tr>
<tr>
<td>5. Utility infrastructure - Research Services of MARC does not currently have access to this data at present</td>
<td>Through collaboration with jurisdictions and utility companies are working to address this.</td>
<td>Planning Team, MARC</td>
</tr>
<tr>
<td>6. Data regarding homes without basements –</td>
<td>The next time MARC asks for a parcel update will seek this information</td>
<td>MARC</td>
</tr>
<tr>
<td>7. Building counts – not all jurisdictions maintain a GIS layers of building points or building outlines. MARC digitized many buildings by hand as part of a SOLAR grant but will not be able to keep it current.</td>
<td>As jurisdictions develop GIS capabilities this information will be incorporated in future updates.</td>
<td>Participating Jurisdictions</td>
</tr>
</tbody>
</table>
### Table 6.1 Data Deficiencies identified [From the 2015 Plan]

</tr>
</thead>
<tbody>
<tr>
<td>8. Critical facilities – don’t have measures of size or capacity or capabilities for most of them. This information would help produce more meaningful maps and visualizations.</td>
<td>As jurisdictions continue to implement HAZUS software this information become more accessible.</td>
<td>Participating jurisdictions, MARC</td>
</tr>
<tr>
<td>9. Addresses of repetitive flood loss properties would have been helpful in mapping the general locations where flooding occurs that is more likely to damage property.</td>
<td>Continue to work with jurisdictions and the State Emergency Management Agency to determine options for obtaining this type of information.</td>
<td>Participating jurisdictions, MARC</td>
</tr>
</tbody>
</table>

Minor data limitations continue to exist for estimating probability of future occurrence and potential damages for drought, heat waves and severe winter storms. Specific limitations are discussed in each hazard profile.

#### 6.2 Incorporation into Existing Planning Mechanisms

Incorporation of the mitigation strategies, goals, and actions into other planning mechanisms, as identified by each jurisdiction, is discussed in full in Section 3. The planning process used to update the plan will continue to tie hazard risk assessment for each jurisdiction to the capabilities and resources that the jurisdictions have available. Through the Community Profile, jurisdictions and organizations identify the hazards that for which their jurisdictions are most at risk. In addition, the jurisdictions and organizations report on the administrative, technical, financial, and programmatic (education and outreach) resources that they have in place. Participating jurisdictions and organizations are encouraged to consider this information as they identify mitigation goals and actions. In the end, the goals is to establish a cycle where the Hazard Mitigation Plan update process drives changes and improvements in the local planning mechanisms and capabilities and also, local planning processes will ultimately identify projects and initiatives that can be supported in the Hazard Mitigation Plan.
6.3 Continued Public Involvement

Public involvement in the mitigation planning process — from plan development through implementation of mitigation actions and plan review, evaluation and revision — is important to the success and sustainability of a community’s (and the region’s) mitigation efforts. As stakeholders in the mitigation process, the public should be given the opportunity to influence the policy decisions that will affect their communities.

The residents of participating jurisdictions that have adopted this plan will be encouraged to participate in the plan maintenance and review process. Copies of this plan will be provided to the following public libraries or library systems serving the participating jurisdictions:

**Ray County Library**  
215 East Lexington  
Richmond, MO 64085

**Kansas City Public Library**  
14 West 10th Street  
Kansas City, MO

**Mid-Continent Public Libraries**  
(Administrative Headquarters, serving Jackson, Platte and Clay Counties)  
15616 East 24 Highway  
Independence, MO

**Cass County Libraries**  
(Administrative offices)  
400 E. Mechanic St.  
Harrisonville, MO 64701

Copies of the plan will also be available from MARC and from the participating jurisdictions. In addition, this plan will be posted on MARC’s website and the websites of participating jurisdictions, if possible. Contact information and the method for submitting comments and suggestions regarding the plan (i.e., e-mail, social media addresses, etc.) will also be posted on the aforementioned websites. The availability of this plan will also be publicized in MARC’s printed, online and electronic newsletters, such as *Management Matters* and through MARC’s social media. Participating jurisdictions will also publicize the availability of this plan in community newsletters and related publications as well as advertising on community TV channels. All information regarding plan availability will continue to be posted in accordance with the provisions of the Missouri Sunshine Law. Additional information regarding Missouri’s Sunshine Law can be found on the Web site of Missouri’s Attorney General at [https://ago.mo.gov/missouri-law/sunshine-law](https://ago.mo.gov/missouri-law/sunshine-law).

During the yearly reviews, the Planning Teams will use PrepareMetroKC.org website and other means to direct the public to the plan’s availability and again solicit information on topics of mitigation concern to the community. Specific information regarding public involvement efforts as part of the planning process can be found in Section 1.3.5. Additional media outlets for potential advertising are found in Section 2.6.
6.4 Attachments

Attachment 6.1: Hazard Mitigation Planning Committee (HMPC) Members Roles and Responsibilities

I. Roles
   A. Planning Team:
      
      **Justin Crane**, Director, Cass County Emergency Management
      Representing the following Cass County communities:
      - Belton
      - Harrisonville
      - Lake Winnebago
      - Peculiar
      - Pleasant Hill
      - Raymore
      - Archie R-V School District
      - Belton School District
      - Harrisonville School District
      - Pleasant Hill School District
      - Raymore-Peculiar School District
      
      **Will Akin**, Emergency Management Director, Clay County
      Representing the following Clay County communities:
      - Excelsior Springs
      - Gladstone
      - Kearney
      - Lawson
      - Liberty
      - Mosby
      - North Kansas City
      - Smithville
      - Fishing River Fire Protection District
      - Excelsior Springs School District
      - Liberty School District
      - North Kansas City School District
      - Smithville R-II School District
      
      **Mike Curry**, Director, Jackson County Emergency Preparedness
      Representing the following Jackson County communities:
      - Blue Springs
      - Greenwood
      - Grandview
      - Lee’s Summit
Regional Multi-Hazard Mitigation Plan

Plan Maintenance

- Oak Grove
- Raytown
- Sni Valley Fire Protection District
- Blue Springs R-IV School District
- Fort Osage School District
- Grain Valley School District
- Independence School District
- Kansas City School District
- Lee’s Summit R-VIII School District
- Oak Grove R-VI School District
- Kansas City University of Medicine and Biosciences
- Metropolitan Community Colleges

Anthony Avery, Captain, Platte County Sheriff’s Department (Appointed by Mark Owen, Director, Platte County Emergency Management)

Mike O’Neal, Deputy Director, Platte County Sheriff’s Department (Appointed by Mark Owen, Director, Platte County Emergency Management)

Representing the following Platte County communities:
- Dearborn
- Edgerton
- Farley
- Ferrelview
- Houston Lake
- Lake Waukomis
- Northmoor
- Parkville
- Platte City
- Platte Woods
- Riverside
- Tracy
- Weatherby Lake
- Weston
- Northland Regional Ambulance District (NRAD)
- West Platte Fire District
- North Platte R-1 School District
- Park Hill School District
- Park University
- Platte County R-III School District
- West Platte R-II School District
Carl Harper, Emergency Manager, Ray County
Representing the following Ray County Jurisdictions:
- City of Richmond
- Lawson School District

Dante Gliniecki, Emergency Manager, City of Independence
James Connelly, Emergency Manager, Kansas City, Mo. Emergency Management
Chris Carroll, Emergency Planner, Kansas City, Mo. Emergency Management
Billie Hufford, Building Inspector, City of Grandview
David Pavlich, Community Development Director, City of Kearney
Justin Sorg, FEMA (advisor)

B. Plan Author, Mid-America Regional Council (MARC):
Marlene Nagel, Community Development Director
- Project manager, process facilitator, co-author and researcher

John Davis, Emergency Services Administrative Support
- Data management and document design

Erin Lynch, Emergency Services and Homeland Security Program Director
- Editor and project oversight

Jay Heermann, GIS Manager
- Research and GIS lead

Jakob Goldman, GIS Specialist II
- GIS mapping, coordination and research

Andrea Repinsky, GIS Specialist II
- GIS mapping and research

Tim Victor and Sara Hintze, Database Analysts
- Developed online planning tools

Catherine Couch, Public Affairs Coordinator
- Lead graphic designer; marketing coordinator

II. Responsibilities
A. Plan Author
1. Provide administrative support for the update process to include, but not limited to:
   a. Organize meetings, send mailings, draft and incorporate plan revisions, conduct research, etc.
   b. Provide the Planning Team with recommendations and advice on plan requirements as well as electronic and/or hard copies of updates to the plan as they are drafted for review and comment
   c. Assist in the development of mitigation strategies.
   d. Provide monthly updates and other information as requested to SEMA in accordance memorandum of agreement.
e. Compile comments, revisions, evaluations, etc., from future reviews and updates and integrate into plan.

B. **Planning Team**
   1. Oversee the update process to include, but not limited to:
      a. Determine requirements for satisfactory participation.
      b. Review and approve all revisions to the hazard mitigation plan.
      c. Provide locations to host meeting opportunities.
      d. Work with represented jurisdictions to assist in gathering required information and developing mitigation strategies.
      e. Organize yearly reviews of the plan for represented jurisdictions. Review all new information submitted and forward to Plan Author for incorporation.

C. **Participating Jurisdictions**
   1. Inform the update process by accomplishing the following:
      a. Complete all requirements for satisfactory participation as determined by the Planning Team.
      b. Review and comment on the plan as drafts become available. Formally adopt the completed plan by resolution.
      c. Participate in yearly reviews of the plan and subsequent five-year updates. Submit changes as necessary to Planning Team representative for review and forward to Plan Author.
      d. Designate a responsible party to coordinate the above and notify Planning Team representative of designee by name, job title, organization or any other satisfactory method upon appointment or when a change occurs. Responsible parties for participating jurisdictions shall be listed in Attachment 2 to this section.

**Attachment 6.2: 2020 Participating Jurisdictions’ Designated Responsible Parties**
