City beautification. We need a beautiful and welcoming look where you enter De Soto and along main streets.	1
Midtown Costco is going to be a lot more dangerous for cyclists and kids due to increased truck traffic	1
Are we trying to get a data center in De Soto?	1
Both De Soto and Lenexa are planning on traffic patches for 83rd Street from K-7 to De Soto. The road needs to be widened to at least three lanes, preferably four. Yes, it will be expensive, but with all the development underway, it is a must have. Traffic circles won't help move traffic, they will just bottle it up and cause accidents. I believe De Soto's patch is widening some of 83rd to the tune of 65 million. Just bite the bullet and do the whole job at once. I really believe both cities need your guidance.	1
Removal of bus stops/park & ride near Metcalf has made it extremely difficult to take the bus, especially for those with mobility issues who need to park & ride. Specifically there used to be a park & ride bus stop at the Overland Park Farmer's Market but the city of OP spent at least $38 million on a new Farmer's Market and removed the bus stop. Neither the city of Overland Park nor JoCo Transit will take responsibility for restoring that necessary park & ride bus stop at the Farmer's Market or somewhere nearby such as Matt Ross Center, where there used to be a park & ride location, or even to consider another nearby park & ride location such as 95th & Metcalf or 75th & Metcalf. I consider this to be discrimination against people with mobility issues due to removal of a stop where people with mobility issues can park their vehicle and ride, and no alternative even considered	1
