**Independent Auditors' Report On Internal
Control Over Financial Reporting And On
Compliance And Other Matters Based On An
Audit Of Financial Statements Performed In
Accordance With *Government Auditing Standards***

Board of Directors
Mid-America Regional Council
Kansas City, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Mid-America Regional Council (MARC), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise MARC's basic financial statements, and have issued our report thereon dated June 26, 2025.

Report On Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered MARC's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of MARC's internal control. Accordingly, we do not express an opinion on the effectiveness of MARC's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report On Compliance And Other Matters

As part of obtaining reasonable assurance about whether MARC's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report On Compliance
For Each Major Federal Program; Report
On Internal Control Over Compliance; And
Report On Schedule Of Expenditures Of Federal
Awards Required By The Uniform Guidance**

Board of Directors
Mid-America Regional Council

Report On Compliance For Each Major Federal Program

We have audited Mid-America Regional Council's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Mid-America Regional Council's major federal programs for the year ended December 31, 2024. Mid-America Regional Council's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Mid-America Regional Council complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis For Opinion On Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibility under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Mid-America Regional Council and to meet our ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Mid-America Regional Council's compliance with the compliance requirements referred to above.

Responsibilities Of Management For Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Mid-America Regional Council's federal programs.

Auditors' Responsibilities For The Audit Of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Mid-America Regional Council's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Mid-America Regional Council's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Mid-America Regional Council's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Mid-America Regional Council's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Mid-America Regional Council's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report On Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities For The Audit Of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report On Schedule Of Expenditures Of Federal Awards Required By The Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mid-America Regional Council as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise Mid-America Regional Council's basic financial statements. We issued our report thereon dated June 26, 2025, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management, and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

MID-AMERICA REGIONAL COUNCIL

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

December 31, 2024

1. Organization

The accompanying schedule of expenditures of federal awards presents the activity of all federal award programs of Mid-America Regional Council (MARC) for the year ended December 31, 2024. All federal awards received directly from federal agencies, as well as federal awards passed through other governmental agencies, are included on the schedule.

2. Basis Of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of MARC and is presented on the modified-accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

3. Local Government Contributions

Local cost sharing, as defined by the Title 2 CFR 200.306, is required by certain federal grants. The amount of cost sharing varies with each program. Only the federal share of expenditures is presented in the Schedule of Expenditures of Federal Awards.

4. Additional Audits

Grantor agencies reserve the right to conduct additional audits of MARC's grant programs for economy and efficiency program results. Such an audit may disclose disallowed costs to MARC. However, management does not believe such audits would result in any disallowed costs that would be material to MARC's financial position at December 31, 2024.

5. Indirect Costs Rate

MARC has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. MARC either does not apply an indirect cost rate or uses a rate agreed to in the grant agreement.

MID-AMERICA REGIONAL COUNCIL

SCHEDULE OF FINDINGS AND QUESTIONED COSTS December 31, 2024

Section I - Summary Of Auditors' Results

Financial Statements

Type of report the auditor issued on whether the financial statements were prepared in accordance with GAAP:

Unmodified

None

Section III - Federal Award Findings And Questioned Costs

None

MID-AMERICA REGIONAL COUNCIL

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS For The Year Ended December 31, 2024

<i>Finding</i>	<i>Description</i>	<i>Current Year Status</i>
2023-001	It was determined based on research by management that certain fees charged to participating cities and counties in prior years had been recorded as unearned revenue when no time or purpose restrictions existed in the fee arrangements	Corrective action was taken to remediate this finding
