points, in more places.**

In addition to the Coordinating Council,
the RHP is organizing three workgroups for 2026:

Community Voice

Policy & Process

Understanding the Narrative

“Narratives are all around us – in the news, in politics, in pop culture, in every conversation. They are the stories and messages that not only influence us, but define us.

When we show how and why everyone needs a safe place to live, we build public support for housing solutions.”
