REQUEST FOR PROPOSALS

A. PURPOSE AND INTRODUCTION

The Mid-America Regional Council (MARC) seeks consulting services to complete the Multi-County Regional Bike/Ped Highway Barrier Removal Project for the City of Kansas City, Mo.

The PSP Program provides local governments with financial support to advance detailed local planning and project development activities in support of *Creating Sustainable Places, Connected KC 2050's* Activity Centers and Corridors framework, and the Mid-America Regional Council's adopted policy statement on regional land use direction. The subject project is one of 15 across the region chosen for funding through the Planning Sustainable Places Program.

B. CREATING SUSTAINABLE PLACES INITIATIVE

In October 2010, a consortium of more than 60 regional partners, led by the Mid-America Regional Council, received a \$4.25 million planning grant from the U.S. Department of Housing and Urban Development to advance the implementation of the Regional Plan for Sustainable Development, [Creating Sustainable Places](#).

Creating Sustainable Places is not only a regional vision and plan to guide how we grow and develop, but a strategy for moving our communities from planning to action. This strategy includes the following steps:

- Organizing for Success – Building on the region's strong track record of collaboration to provide leadership, coordinate outreach and education activities, broaden public understanding of and involvement in sustainability issues, and strengthen stakeholder capacity to address them.
- Enhancing Decision Making – Developing new tools, policies and practices necessary to make sound investments and accelerate sustainable development.
- Demonstrating New Models – Applying these new tools to key corridors and activity centers through demonstration projects that can help transform the ways neighborhoods and communities grow and develop.

The 2013 Planning Sustainable Places Program (PSP) combined funds dedicated to the demonstration projects component of Creating Sustainable Places and the Livable Communities Surface Transportation/Bridge Program awards to provide local governments with financial support to advance detailed local planning and project development activities. The program received 37 applications and funded 18 projects.

The 2015, 2017, 2019 and 2021 Planning Sustainable Places Programs (PSP) were funded solely through the Livable Communities Surface Transportation Program and thus funding was only available to jurisdictions and other government entities within the eight county MARC metropolitan planning organization boundary. In 2015, the program received 27 applications and funded 13 projects. In 2017, the program received 36 applications and funded 25 projects. In 2019, the program received 24 applications and funded 12 projects. In 2021, the program received 30 applications and funded 14 projects.

The Creating Sustainable Places Initiative and the region's long-range plan, *Connected KC 2050 (CKC 2050)* outline a need to focus efforts on promoting concepts consistent with sustainable communities and place a focus on advancing site specific and project specific activities in support of these objectives. Projects awarded funding will be consistent with those goals.

The 2023 Planning Sustainable Places program will continue to serve as a single local government assistance program intended to specifically respond to these goals and facilitate the following objectives:

Program Objectives:

- Support the development and implementation of local activity center plans consistent with Creating Sustainable Places principles, identified regional activity centers, and the land use policy direction outlined in *Connected KC 2050*.
- Support localized public engagement and community consensus building.
- Support the identification and conceptualization of land use strategies, transportation projects, and related sustainable development initiatives that help to realize and advance the objectives identified in the Creating Sustainable Places initiative, *Connected KC 2050*, and the MARC Board's adopted policy statement on regional land use direction.
- Support the conceptualization, development, and implementation of Creating Sustainable Places projects.

Additional information about the [Planning Sustainable Places](#) program and the [Creating Sustainable Places](#) initiative can be found on the MARC website, www.marc.org.

The focus of this request for proposals (RFP) is to create a Sustainable Places Plan that addresses the following key priorities for the City of Kansas City, Riverside, and North Kansas City, Mo:

- **Connectivity to existing multi-modal facilities**
- **Elimination of highway and railroad barriers that disconnect the three municipalities**
- **Reasonable five year capital phasing plan**
- **Access to large employment destinations in the Horizons Business Park, Oracle, Briarcliff, Northpoint, North Kansas City Hospital, and the Armour Road business district**
- **Optimization of access to the proposed multi-modal system from parks such as EH Young, Waterwell, and Macken Parks to utilize as trailheads or destinations**

C. PROJECT BACKGROUND

The Line Creek and Missouri River Trails are the backbone of a multi-jurisdictional trail system in Platte County connecting Kansas City, Parkville, Riverside, and Platte County. In addition to the main trail, there are numerous east/west connections. However, the Platte County trail network stops at the Clay County line at the Briarcliff Parkway and Route 9 interchange. This expressway and interchange are a barrier for non-motorized users of the trail and inhibits expansion of the trail system into Clay County and North Kansas City to connect to North Kansas City's proposed Burlington Avenue cycle track and Macken Park. The purpose and need for the project is to determine how to connect the existing extensive trail and bike systems in Platte, Clay, and Jackson Counties to employment centers and provide a true multi-modal transportation network in the heart of the region.

D. SCOPE OF SERVICES

Stakeholder and Public Engagement

This is a multi-county project that crosses several jurisdictions and requires stakeholder coordination and engagement. It is essential for the project team to meet with MoDOT, North Kansas City, Kansas City, the North Kansas City Levee District, and BNSF Railway to ensure the project is successful. The consultant team should design a stakeholder coordination and engagement plan to ensure all stakeholders are involved throughout the project.

A robust and equitable public engagement process is required to meet the needs of the applicant and the requirements of the Planning Sustainable Places program. Due to the multi-jurisdictional nature of the project, the team should utilize multiple innovative methods of public engagement. This may include, but is not limited to:

- Online surveys
- Public meetings
- Online platform to house all handouts, materials and displays
- Coordination with property owners to engage retail, office, and residential tenants that would directly benefit from the project
- Engage bicycle and pedestrian advocacy groups
- Utilize existing notification channels of North Kansas City, Kansas City, MoDOT, and Riverside
- Utilize ITS message boards on the corridor
- Create yard signs to place along the study area to engage people who walk or bike the corridor

Deliverables: stakeholder engagement plan, public engagement plan, online survey, meeting materials

Infrastructure Planning

This study will assess how to remove these barriers, connect the trail/bikeway systems, and connect to multi-modal facilities in North Kansas City which serve Jackson County and downtown Kansas City via the Heart of America Bridge. It should also identify other connectivity gaps that may inhibit access to the proposed multi-county multi-modal system. The study should determine the appropriate facility type, location, project costs for improvements, and create a strategy for implementation. These concepts should be visualized using AutoCAD, ArcGIS, Adobe Creative Suite, or other applicable software. Consultant would review available databases for an initial NEPA risk evaluation to utilize during screening during the scenario planning.

Utilizing data indicators and scenario planning, the team should assess how this project may reduce congestion, improve air quality, access to transit and improve levee system drainage. Additionally, the consultant team should utilize GIS data from available databases to determine how to connect environmental justice tracts and areas with less vehicle ownership.

Deliverables: assessment of conditions, conceptual designs, implementation plan, scenario plans

Final Plan

The final deliverable should demonstrate effective engagement and make recommendations for the removal of barriers for access to the Line Creek Trail system. An implementation plan will demonstrate how jurisdictions can move forward with the project and prioritize improvements.

Deliverable: final plan

The following items must be addressed in all proposals:

1. **PROPOSED PROJECT APPROACH:** Responses should include a proposed approach to the project that includes the proposer's understanding of the project's objectives and local context, tentative schedule for project completion, a description of your approach to each of the tasks listed in Section D, description of all project deliverables and tentative public engagement process. Please provide your staff capacity for meeting the project requirements. Identify the key team members who are likely to be assigned to this contract if your proposal is selected along with a description of their roles and responsibilities. State approximate date your business/firm is available to begin work on the Project. Provide a list of subcontractors to be included on the consultant team, along with a brief description of their qualifications and services they are likely to perform.
2. **PROPOSED PUBLIC ENGAGEMENT STRATEGIES:** Responses should include a proposed approach to public outreach and engagement including process, meetings, tools and techniques to be utilized for engaging the community and key stakeholders in this project.
3. **QUALIFICATIONS:** Proposals should indicate general and specific qualifications of the proposer in disciplines appropriate to this project and specifically convey the role of the proposer in each case cited. An emphasis and priority in evaluation will be placed on firms with qualifications and experience that have resulted in successful implementation of comparable projects. A brief narrative (three pages maximum) may also be included regarding the firm's capabilities to carry out this project, including special assets, areas of expertise, analytical tools, data sources, etc. to which the firm may have access.

Proposals shall also include:

- a. A listing and summary of similar projects undertaken within the last five (5) years,

- by proposing firm and/or its subcontractors, showing contract amounts, description of work performed, client contact persons, phone numbers, and e-mail addresses (3 single pages maximum);
 - b. Resumes of key professional staff who will be assigned to this project (3 single pages maximum);
 - c. Description of the existing and anticipated workload of individuals assigned to this project during the period of this study. Any reassignment of designated key staff shall not occur without mutual consultation and the consent of the Mid-America Regional Council and [sponsor].
 - d. References. (3 – 4 including contact name, phone number and email address)
4. **DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOAL:** Studies funded in part by USDOT are required to follow 49 CFR part 26 Disadvantage Business Enterprise Program (DBE). The proposed study has a minimum DBE goal of 22%. Required attachment for consultant acting as DBE.
 5. **AFFIRMATIVE ACTION CHECKLIST:** If applicable, proposers must complete and enclose with their proposal company's Affirmative Action Plan (see Attachment B Affirmative Action Checklist). Required for all contractors, primary or sub, who have 50 or more employees. If you have 49 or less employees, then please note this requirement doesn't apply to your firm.
 6. **CERTIFICATION REGARDING DEBARMENT:** Each proposer is required to certify by signing the "Certification Regarding Debarment, Suspension, and Other Ineligibility and Voluntary Exclusion" (Attachment C). "Certification Regarding Debarment, Suspension, and Other Ineligibility and Voluntary Exclusion" is a certification that the proposer is not on the U.S. Comptroller General's Consolidated Lists of Persons or Firms Currently Debarred for Violations of Various Contracts Incorporating Labor Standards Provisions. Required of primary only.
 7. **CERTIFICATION REGARDING LOBBYING:** See Attachment D. Required for primary only.

G. SELECTION PROCEDURE

The review committee shall adhere, as closely as possible, to the following review schedule. The sponsor reserves the sole right to change this review schedule to meet the needs of the review committee.

Milestone	Date
RFP Released	October 3, 2022
Pre-Bid Workshop	October 12, 2022, 3 pm CDT
Proposals Due	October 28, 2022, 3 pm CDT

MARC Board Authorization	December 20, 2022
Execute Contract	December 21, 2022 – January 4, 2023
Notice to Proceed	Within two weeks after receipt of signed contract

Review will be conducted by a committee made up of representatives from Mid-America Regional Council and representatives selected by City of Kansas City, Mo. Interviews will take place with short-listed firms.

H. PROPOSAL EVALUATION CRITERIA

The proposals submitted by each Contractor, Firm, or Contractor Team, will be evaluated by the selection committee according to the following criteria:

- Project understanding and approach to critical issues 40%;
- Experience and availability of key personnel 20%;
- Experience on similar projects 20%;
- Approach to community engagement 15%;
- Ability to accomplish project within desired timeframe 5%.

I. PRE-PROPOSAL MEETING AND QUESTION SUBMITTAL

MARC will host a hybrid pre-proposal meeting for all interested consultant teams to ask questions and gain clarity around any elements or requirements of this RFP.

When: Wednesday, October 12, 2022, at 3 pm
Where: Mid America Regional Council, Board Room
600 Broadway, Ste. 200
Kansas City, Mo. 64105

To attend the meeting virtually, please register via:

<https://www.marc.org/event/planning-sustainable-places-project-rfp-workshop>

All questions/requests for clarifications must be submitted in writing to MARC by October 19, 2022 at noon CST.

Please submit questions in writing to **Beth Dawson** at bdawson@marc.org and **Taylor Cunningham** at tcunningham@marc.org.

MARC will post all questions, answers and clarifications to <https://www.marc.org/about-marc/funding-and-rfps>.

J. CONTRACT AWARD

From the firms expressing interest, a committee will review the submittals and rank the firms. Short listed firms will be notified to schedule an interview.

The remaining firms will be notified by letter after the agreement is approved by the Board.

Awarding of the final contract is subject to the acceptance of the grant by the MARC Board and a signed funding agreement between City of Kansas City, Mo. and MARC.

K. PROJECT BUDGET

The award of this contract will be based on a **qualifications-based selection process** that may include in-person interviews followed by the successful negotiation of costs and fees. The

selected firm should be prepared to provide cost and fee information within two days of their notification of selection for negotiation. If the City cannot come to an agreement with the first choice firm on costs and fees, then the City may choose to terminate those negotiations and begin negotiations with the second firm on the scoring list or terminate all negotiations and issue another RFP for these services at a later date. The budget maximum is \$210,500.

L. PERIOD OF PERFORMANCE: End date of February 1, 2024.

Both the project budget and the period of performance are subject to change based on the availability of funds or other unforeseen events or activities.
