TIP #: 356106		Juris: JOHNSON COUNTY		Location/Improvement:		COMPREHENSIVE SAFE ROUTES TO SCHOOL PROGRAM IN JOHNSON COUNTY	
State #: N-0729-01		Fed #: TA-N072(901)		County: JOHNSON		Type: Pedestrian and/or Bikeways	
						Length (mi): N/A	
Phase	Year of Obligation	Type	Source	Cost (IN THOUSANDS)	Description:	The Comprehensive Safe Routes to School (SRTS) Program at the Johnson County Department of Health and Environment (DHE) will include bicycle and pedestrian safety education and encouragement efforts. In partnership with a contractor who can deliver the technical aspects of bike programming, DHE will focus on communities most in need of safe active transportation options and physical activity. The contractor's technical expertise in programming and DHE's focus on population health and equity will empower youth to bike and walk to school and improve their neighborhoods. Components include: bicycle and pedestrian safety education; walking school bus activation; SRTS technical assistance; arrival/dismissal evaluations; programs to teach middle and high school students to be ambassadors for bike-friendly communities; and public engagement. Built environment assessments will weave into much of this programming and inform where classes are held and how they are implemented.

Phase	Year of Obligation	Type	Source	Cost (IN THOUSANDS)	Description:	This is the implementation of a Complete Street Action Plan for the 47th Street corridor from Rainbow Blvd to just west of Mission Road, that was built upon two separate Master Planning process completed by the City of Westwood, Kansas and the UG of KCK with the Rosedale Master Plan. The final project concept plan is based on a completed Planning Sustainable Places (PSP) project. The project proposes a new street design and layout of the corridor by utilizing the principles of complete streets. The plan emphasizes sustainable green street practices while balancing the needs and desires of a mix of users (vehicular, on-street parking, transit, pedestrian, and bicycle lanes), and identify capital and utility improvements in the project area.

The current activity center includes Broadmoor Elementary School, Louisburg Middle School, Louisburg Athletic Club, pharmacy, church, cafe, convenience store, police station, fire station, shopping districts, businesses as well as residential neighborhoods. The planned work includes roadway curb and gutter upgrade as well as new integrated trail east along Metcalf Road from S. 2nd to W. 287th Street and sidewalk west along Metcalf Road from S. 2nd Street to S. 10th Street. Also included are upgrades to two crossings at S. 5th Street and Thomas Drive. This integrated trail will connect to the existing integrated trail around Louisburg Lake. The roadway upgrades include curb and gutter design with vegetated buffers which is planned to tie in at the recently improved intersection at Amity Street (K-68) intersection south to W. 287th.

State #:		Fed #:		County: CASS		Type: Traffic Flow	Length (mi): 0.45
Phase	Year of Obligation	Type	Source	Cost (IN THOUSANDS)		Description: The City of Peculiar is a rapidly growing community in Cass County. Route C (Main Street) is a two-lane roadway that provides access to the city via an I-49 interchange. Areas of concern along Route C from I-49 to Peculiar Drive include non-standard five-leg intersections, high rates of rear end crashes, lengthy delays and queues during peak hours, and projected long delays in the future at several side street approaches. In the short-term, several of the identified concerns can be addressed with geometric and intersection improvements. Therefore, the project scope includes adjustments to skewed approaches, driveway relocations, and left-turn lanes to create standard four-leg intersections at three locations: Schug Avenue, North Street, and Peculiar Drive. The project will improve safety and access for vehicles, trucks, and freight. Safe crossings at the improved intersections will also complement recent sidewalk improvements, which will accommodate bicyclists and pedestrians.

The project includes 0.43 miles of ADA accessible 10 foot width concrete trail connecting the Little Blue Trace trail from the 350 Hwy and Noland Road area to the new Rock Island SUP currently under construction. The project is for non-motorized use by bicyclists and pedestrians and will link existing trails and eliminate barriers by providing a grade separated under-crossing of Noland Road and a 200 foot long bridge over the Little Blue River. The two trails, LBT and Rock Island, are both long time priority segments of the MetroGreen Plan. This project will connect them and provide increased opportunity for recreational, economic and transportation alternative usages, including connection to the planned redevelopment of the 350/Noland Road activity center/TOD.
