● Workforce Planning Analysis

Plan due to EPA
on December 1

Climate Action Plan

-DRAFT Strategies-

Collaboration
& Leadership

Innovation
& Finance

Strong
Communities

Urban
Greening

Renewable
Energy

Building Energy

Transportation
& Land Use

Circular Economy
& Waste

Food
& Agriculture

Climate Scenario Planning

- Explore uncertainty
- Inform long-term decision-making
- Stress test policies and strategies
 - GHG and co-pollutants reductions
 - Cost/ Return on investment
 - Workforce requirements and gaps
 - Metrics
 - Targets

Business-As-Usual

Business-As-Planned

Low-Carbon 1:
The Market and Technology Will Save Us

Low-Carbon 2:
Culture Shift

Community Engagement

**Climate &
Environment
Council**

Workshops

Office Hours

**Targeted
Engagement**

**Committee
Engagement**

**Youth
Engagement**

**Local
Government
Meetings**

**Public
Comment
Period**

Next Steps

1. Complete climate scenario modeling
2. Plan development
3. Final phase of public engagement (June-September)
4. Adoption (November)
5. Submit to EPA (December 1)
