Board of Directors of the Mid-America Regional Council & City and County Governments in the bistate Kansas City region and citizens:

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the Mid-America Regional Council (MARC) for the fiscal year ended December 31, 2024. The report is issued pursuant to MARC's Articles of Agreement. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with MARC. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of MARC's various funds. All disclosures necessary to enable the reader to gain an understanding of MARC's financial activities are included in the report.

Management's Discussion and Analysis

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. MARC's management discussion and analysis can be found immediately following the independent auditors' report.

Independent Audit

MARC's financial statements have been audited by RubinBrown LLP, a firm of licensed certified public accountants. The independent auditor concluded that MARC's financial statements for the fiscal year ended December 31, 2024, are fairly presented in all material respects, in conformity with generally accepted accounting principles. The independent auditors' report is presented as the first component of the financial section of this report.

Single Audit

MARC is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Information related to this single audit includes the schedule of expenditures of federal awards, schedule of findings and questioned costs, and auditors' reports on compliance and internal control. The schedules and reports are included in a separate document.

Internal Controls

MARC's management team has established a comprehensive internal control framework that is designed to compile sufficient and reliable information for the preparation of financial statements in conformity with generally accepted accounting principles. Because the cost of internal controls should not outweigh their benefits, MARC's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements.

Budgeting Controls

MARC's annual budget is a management tool to help users analyze projected financial activity for the fiscal year ending December 31. Although the annual budget is reviewed and approved by the Board of Directors, it should not be considered a legally adopted budget.

The approved annual budget is used as a control device for MARC's General and Proprietary Funds. The individual grant budgets are used as the control device within the Special Revenue Fund.

The Reporting Entity and its Services

The Mid-America Regional Council was formed on January 1, 1972, as the result of the merger of Mid-America Council of Governments and the Metropolitan Planning Commission. MARC is a nonprofit corporation, organized and existing pursuant to Kansas law, specifically Section 12-716 *et seq.* (now repealed) and 12-2901 *et seq.* of the Kansas Statutes, as well as Missouri law, specifically Article VI, Section 16 of the Missouri Constitution and Sections 70.210 *et seq.* of the Revised Statutes of Missouri.

MARC was formed as a voluntary coalition of local governments in response to the increasing demand for regional cooperation. With input from federal, state, and local governments, citizens' groups and the private sector, MARC serves as a forum for the discussion of various issues, including transportation, the environment, public safety and emergency services, early learning, aging services, public health, and community development issues. MARC also provides seminars and training opportunities for local governments and serves as an advocate for the region in the state and federal legislative arenas.

MARC's services have expanded over the years and continue to evolve to meet the changing needs of the region. MARC promotes regional cooperation and develops innovative solutions through leadership, planning and action.

MARC services are funded by a variety of sources, including contributions by member governments; formula and discretionary grants from Missouri, Kansas, and the federal government; and contributions for specific programs from private foundations and civic organizations.

The MARC Board of Directors (the Board) consists of 31 members, including the chief elected officials from the nine member counties (Wyandotte, Leavenworth, Miami and Johnson counties in Kansas, and Jackson, Cass, Clay, Platte, and Ray counties in Missouri) and six member cities (Overland Park, Kansas;

Kansas City, Kansas; Olathe, Kansas; Kansas City, Missouri; Lee's Summit, Missouri; and Independence, Missouri), and other representatives of the cities and counties in the region. Of these 31 members, 16 are from Missouri and 15 are from Kansas. Five officers, including a chair, first vice chair, second vice chair, secretary, and treasurer, are elected from the Board annually. The Board directs all policy decisions for MARC and meets monthly to discuss issues and act on programs.

The Board provides direction for more than 50 committees and subcommittees working on a wide variety of topics. Committee members include elected officials of the region, local government officials, MARC staff, technical experts, representatives from private business and citizens.

The Board and committee activities are supported by a professional staff headed by an executive director who is appointed by the Board. Staff members are trained in a variety of disciplines, including public administration, economics, urban planning, accounting, social services, and public affairs. The staff works in seven departments: local government services, finance and administration, community development, research services, transportation and environment, early learning, and aging and adult services.

Minority and female involvement in MARC activities, committees and staff is ensured through inclusion efforts, and a sound equal opportunity plan.

MARC encourages direct citizen participation in all of its activities and members of the public are welcome to attend all MARC meetings. Public hearings are frequently conducted on proposed programs. Consideration is given to groups with special needs in all planning processes and efforts are made to include a wide variety of audiences.

The Mid-America Regional Council Community Services Corporation (MARC CSC) is an approved 501(c)3 organization. This nonprofit corporation allows MARC to apply for and receive grants that are awarded only to 501(c)3 organizations. MARC CSC grants are contracted or passed through to MARC for management. The members of MARC's Budget and Personnel Committee form the Board of Directors of MARC CSC. MARC staff members manage and process all program and activities for MARC CSC, which is treated as a major governmental fund.

While MARC does not issue separate financial statements for MARC CSC, it does so for the Mid-America Regional Council Solid Waste Management District (SWMD). The SWMD was formed in 1991 by Cass, Clay, Jackson, Platte, and Ray counties in Missouri. Authority for forming the district was based on Senate Bill 530, passed in 1990. SB 530 established a procedure allowing counties to form regional solid waste management districts to promote waste reduction and recycling. The district's activities and programs are managed by MARC and accounted for in a custodial fund.

Economic Condition and Outlook

The 2024 financial position was strong and based on a stable financial outlook, a comprehensive refresh of core values and a continued commitment to building MARC's organizational capacity and increased technical capabilities. MARC's financial position also reflected new initiatives that are supporting and leading key civic partnerships. Efforts in these areas will continue to benefit Greater

Kansas City by addressing critical needs and priorities. MARC has and will continue to address change in economic conditions with proven financial strategies that include adapting business models, growing capacities, strong partnerships, and diversified funding streams. The fiscal environment is monitored closely for impacts of inflation, policy, and other factors.

Refer to the Economic Conditions and Next Year's Programs section in the management discussion and analysis section for more information on the decrease in MARC's expenditure budget from \$122,563,676 in 2024 (revised budget) to \$117,498,887 for 2025.

The 2025 budget:

- Support and lead key civic partnerships by continuing key programs and services to local governments and the regional community with the focus on technological updates and expansion.
- Projects a 3% decrease in total revenues, and a 4% decrease in expenditures as compared to the 2024 Budget (revised).
- Focuses on applying for federal grants to support climate resiliency planning and communication.
- Develops workforce which includes the reallocation of staff and the restructure of some positions to bring new skills and capacity to research, data analysis and data visualization.
- Strengthening organizational capacity by expanding workforce data and analytics through the Workforce Data Hub.
- Continues the agency's financial policies contributing to long-term fiscal stability, including contributing to a long-term contingency fund and evaluating and updating financial practices to ensure sound fiscal management.

Relevant Financial Policies

Contingency Reserve – The MARC Board of Directors approved a long-term process of building a contingency reserve for the agency to:

- Facilitate cash flow, as the majority of MARC's grants are on a reimbursement basis.
- Take advantage of new opportunities for programs and services and respond to requests for assistance as they arise.
- Provide a safety net to protect the agency from vulnerabilities, e.g., legislation affecting grant programs, cutbacks in state matching funds, delays in grant awards.
- Allow MARC to make significant internal investments such as equipment purchases, technological upgrades, and system enhancements.

MARC's Budget and Personnel Committee established a goal to increase the long-term contingency fund to an amount equal to 12 percent of annual direct salaries, fringe benefits, indirect costs and rent (annual operating costs). Over time, the long-term contingency fund balance has increased steadily to a balance of \$1,925,479 on December 31, 2024, which equates to 9.1 percent, and represents approximately 75.9% of the goal.

Overhead – One measure of the agency's financial status is the extent to which administrative overhead costs are kept within reasonable proportion to the size and scope of the agency's programs and services. Federal grant guidelines stipulate specific methods for calculating indirect cost and other overhead charges, which are used in MARC's actual accounting systems. MARC's indirect cost and fringe benefit rates are negotiated each year with the U.S. Department of Health and Human Services (HHS), MARC's cognizant agency.

HHS will use the actual results from fiscal year 2024 to determine the negotiated rates for 2026, and the fiscal year 2025 actual results to determine the rates for 2027. As such, any surplus or deficiency will roll over into subsequent years in an even/odd rotation. Staff closely monitors how actual indirect and fringe benefit costs compare with the amounts allocated using the fixed rates from year to year. Significant growth or retraction of grant programs may create fluctuations in the rate. The fiscal year 2024 rates were based on fiscal year 2022 actuals, which were still being impacted by the pandemic. MARC's negotiated rates in 2024 allowed for a significant recovery of accumulated deficits in the fringe and indirect funds. MARC's negotiated rates increased in 2025 based on 2023 activity and are anticipated to decrease and normalize in 2026.

Major Work Objectives

In 2025, MARC will continue its current array of ongoing programs, along with several new efforts to serve member local governments and the regional community such as a new meal repack and distribution hub for Silver plate meals, completion of phase one of the Bi-State Sustainable Reinvestment Corridor, and the launch of the Mid-America GSI Certification. MARC's major work objectives include efficient transportation, healthy environment, competitive economy, effective local government, safe and secure communities, thriving older adults, quality early learning and exemplary core capacities. These are outlined in the 2025 Budget and Work Plan of the Mid-America Regional Council online at <https://www.marc.org/about-marc/financial-information>.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to MARC for its annual comprehensive financial report for the fiscal year ended December 31, 2023. This was the 41st consecutive year that MARC has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current report continues to conform to the Certificate of Achievement program's requirements, and we will submit to GFOA to determine its eligibility for certification.

Acknowledgments

The timely preparation of this report could not have been accomplished without the cooperation and dedicated services of the staff of MARC's Finance and Administration Department, and RubinBrown LLP, the independent auditor. We would like to express sincere appreciation to all those who assisted and contributed to its preparation.

Appreciation is also extended to the MARC officers and Board of Directors for their diligence and support in planning and conducting the financial operations of MARC in a responsible and progressive manner.

Respectfully submitted,

Carol Gonzales

FINANCIAL SECTION

Independent Auditors' Report

Board of Directors
Mid-America Regional Council
Kansas City, Missouri

Report On The Audit Of The Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mid-America Regional Council, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise Mid-America Regional Council's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Mid-America Regional Council as of December 31, 2025, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis For Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of Mid-America Regional Council and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mid-America Regional Council's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mid-America Regional Council's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mid-America Regional Council's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 16 through 27 and the Schedule of Changes in Total OPEB Liability and Related Ratios on page 63 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mid-America Regional Council's basic financial statements. The combining and individual fund financial statements and schedules are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated **June 26, 2025** on our consideration of Mid-America Regional Council's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mid-America Regional Council's internal control over financial reporting and compliance.

June 26, 2025

The management of Mid-America Regional Council (MARC) offers this discussion and analysis of the financial performance for the year ended December 31, 2024. Readers should review the information contained here, as well as the information contained in the letter of transmittal, notes to the basic financial statements and financial statements to enhance their understanding of MARC's performance. The intent of this discussion and analysis is to summarize MARC's financial performance.

Financial Highlights

- The total assets and deferred outflows of resources of MARC governmental activities exceeded its liabilities and deferred inflows of resources as of December 31, 2024, by \$25,468,975 (net position). Of this amount, \$16,613,984 represents MARC's unrestricted net position. MARC's net investment in capital assets is \$8,854,991.
- MARC's total net position increased \$6,443,820 or 29% over 2023. An increase in net investment in capital assets accounted for 59% of the increase in the net position of MARC's governmental activities. Capital asset additions were the main driver in the investment in capital assets.
- In fiscal year 2024, MARC's operating grant revenues increased by \$33,011,322, or 43% from \$77,387,921 in 2023 to \$110,399,243 in 2024. Community Development, Early Learning and Transportation Planning account for 76% of the increase and reflect an increase in operating grant revenue across MARC's special revenue fund programs.
- Total liabilities increased \$3,462,712, or 15% from \$22,400,931 in 2023 to \$25,863,643 in 2024. The new multi-year long-term lease and subscription liabilities added in 2024, which is impacted by Governmental Accounting Standards (GASB) *Statement No. 96, Subscription-Based Information Technology Arrangements* accounts for the majority of the change in the balance.
- The fringe benefit/indirect costs allocation pool increased \$1,100,664, from \$199,186 in 2023, to \$1,416,804 in 2024. The total amount of indirect costs and fringe benefits is allocated between programs and reviewed annually to ensure accuracy. Fluctuations from year to year arise when the actual quantity used of the allocation differs. Change in indirect cost rates impacted fringe benefits, and lead to adjustments in direct salary rates and reallocation of costs.
- At the end of 2024, the fund balance of the General Fund was \$5,555,651.

Overview of the Financial Statements

MARC's basic financial statements include three components:

1. The Government-Wide Financial Statements – These statements provide both long-term and short-term information about MARC's overall financial status. The government -wide financial statements are designed to provide readers with a broad overview of MARC's finances.
2. The Fund Financial Statements – These statements focus on individual parts of MARC, reporting MARC's operations in more detail than the government-wide statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.
3. Notes to the Basic Financial Statements – The notes explain some of the information in the financial statements and provide more detail that is essential for the reader's understanding of the financial statements.

Additionally, required and other supplementary information are included in this report to provide additional information to the reader.

Government-wide Financial Statements

The government-wide financial statements have been prepared using the accrual basis of accounting. The focus of these statements is MARC's long-term financial picture, and present readers with the overview of MARC's governmental and business-type activities in a manner similar to a private-sector business.

The two government-wide statements report MARC's net position and how it changed. Net position is one way to measure MARC's financial health.

The Statement of Net Position - reports all of MARC's assets, deferred outflows, liabilities, deferred inflows and net position. Over time, the increases and decreases in net position can be monitored to determine whether MARC's financial position is improving or deteriorating.

The Statement of Activities - shows how MARC's net position changed during the fiscal year. This statement shows the revenues and expenses related to specific programs and how much program support came from MARC's local government appropriations. Since this statement is prepared on the accrual basis of accounting, all revenues and expenses are reported as the underlying event occurs, regardless of when cash is actually received.

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT'S DISCUSSION AND ANALYSIS *(Continued)*

The governmental activities reflect MARC's core services including early learning, community development, emergency services, environmental planning, transportation, aging and adult services. These governmental activities are principally supported by grants, and 218 grants were active during 2024.

The business-type activities reflect private sector-type operations including the Government Training Institute, CORE 4, Educare program, Managed Services Network, Veterans Directed Home and Community-Based Services, Government Innovations Forum, small cities consulting program, aerial photography program, and the cooperative purchasing program in addition to others.

Fund Financial Statements

MARC uses three types of funds to manage its resources: governmental, proprietary, and fiduciary. A fund is a grouping of related accounts separated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations.

Governmental funds – All of MARC's basic services are reported in governmental funds, which are prepared on the modified accrual basis. Under the modified accrual basis, revenues are recognized when they become measurable and available, while expenditures are recognized when the related fund liability is incurred. The exception is long-term debt and other similar items which are recorded when due. The focus of these reports is on the short-term financial resources available to operations reported, rather than MARC as a whole. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the governmental fund financial statements details the relationship between the two types of financial statements.

MARC maintains four governmental funds (General Fund, two Special Revenue Funds, and a Capital Projects Fund), all of which are major funds. Information is presented for each in the *Balance Sheet – Governmental Funds* and in the *Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds*.

Proprietary funds - Financial statements are prepared on the accrual basis of accounting wherein revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. MARC follows the cost of services or "economic resources" measurement focus, under which all assets and all liabilities associated with the activity of providing training and consulting services are included within the fund. MARC only uses one type of proprietary fund, Enterprise funds, which are used to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail.

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT'S DISCUSSION AND ANALYSIS *(Continued)*

Fiduciary funds – Resources held by MARC for the benefit of a third party are reported in fiduciary funds. Because these resources are not available for MARC's operation, they are not presented in the government-wide financial statements. MARC's fiduciary funds include the Private-Purpose Trust Fund and Custodial Funds shown on the fiduciary fund statements. Additional schedules for the Custodial Funds can be found in the supplementary information following the notes to the financial statements.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and notes described above, required supplementary information regarding MARC's funding for postemployment benefits other than pensions have been included.

Other Supplementary Information

Other supplementary information presents combined and individual statements for non-major funds. The statistical section also includes schedules reporting financial activity for the last 10 years, and other miscellaneous data.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. MARC's governmental activities assets and deferred outflows exceeded liabilities and deferred inflows by \$25,468,975 as of December 31, 2024. Of this amount \$8,854,991 reflects the net investment in capital assets used to operate and provide services; consequently, these assets are *not* available for future implementation. The unrestricted net position has a balance of \$16,613,984 which is available for future needs of the organization.

The Proprietary Fund is reported as business-type activities on the *Statement of Net Position*, which shows a balance of \$2,982,304 cumulative unrestricted net position as of December 31, 2024.

MARC ended 2024 with a positive net position. Total assets for MARC are \$54,434,204. Of these total assets, \$17,881,357 are capital and right to use assets and the remaining \$36,552,847 is primarily cash and accounts receivable.

The government-wide statement of activities indicates the major source of program revenues are operating grants. Total operating grant increased in 2024 by \$33,011,322, or 43%. The increase is largely attributable to:

- Funds awarded from the Regional Overlay Program (MDOT)
- New Aging repack building
- Kansas Department of Transportation (KDOT) and Kansas State University to provide drone training for transportation
- Increase in Early Learning contributed services

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

MARC’s net position increased for governmental activities by \$5,955,137 (30%). Key elements of this increase are:

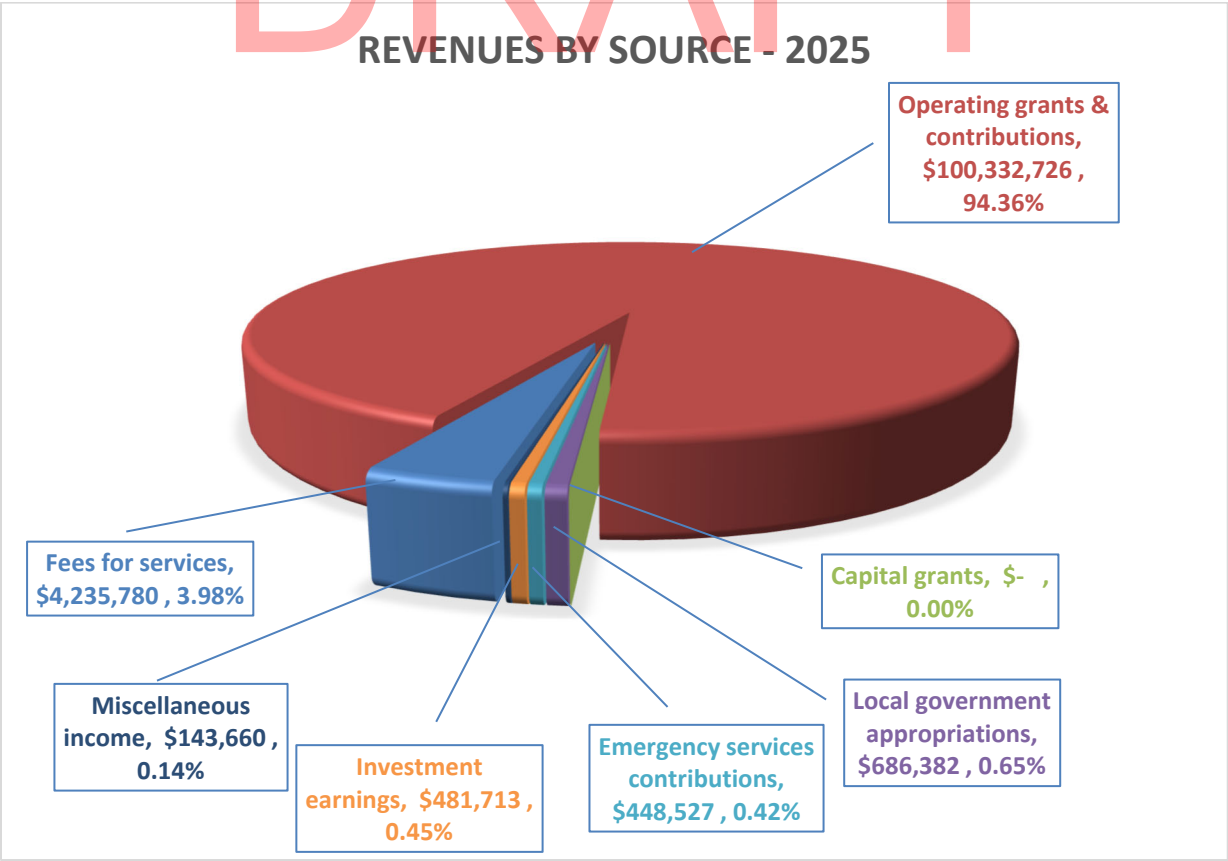

- Increase in revenues in Transportation as a result of The Regional Overlay Program through the Missouri Department of Transportation (MDOT), and the 911 program.
- Other financing sources in Early Learning and Aging exceeded uses due to timing and utilization issues.

Business-type Activities had a 9% decrease in fees for services under Program Revenues and a 12% decrease in Governmental training and consulting services under expenses as compared to 2023. MARC provides these services on an as needed basis and will fluctuate due to timing and need.

Governmental Activities

Governmental activities include the General Fund, two Special Revenue funds, and a Capital Projects fund. Overall, revenues (not including transfers) increased \$34,147,978, or 42% from 2023, due primarily to an increase in operating grants and contributions.

As illustrated by the following graph, 96% of MARC’s governmental activities revenues are from operating grants and contributions.

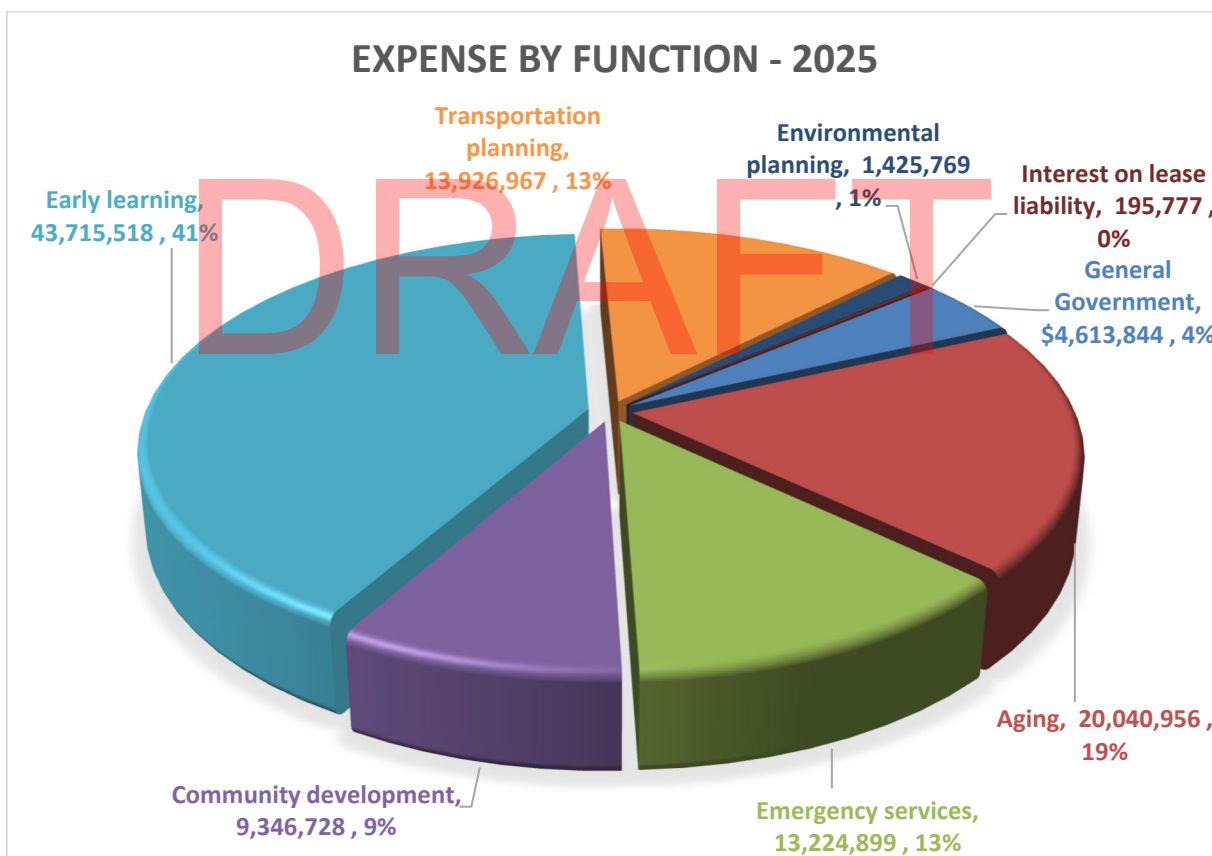

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Local government appropriations include dues from the 14 member governments and voluntary dues from cities within the metropolitan area. The statistical section includes a schedule (Table 6) showing the local government appropriations for the last 10 years.

MARC allocates its fringe benefits and indirect costs to its programs and activities based upon rates negotiated with the U.S. Department of Health and Human Services (HHS). Fringe benefit/indirect costs allocation are recategorized from an expense to a revenue. The amounts that are allocated vary from actual costs, resulting in a surplus or a deficit. A surplus of \$199,186 was incurred in 2023 and a surplus of \$1,416,804 was incurred in 2024. The surpluses/deficits are rolled over to future years in an even/odd year cycle when the rates are negotiated with HHS.

The net cost of each program is an important indicator of the financial burden placed on revenues.

Additional information about program and general revenues may be found on the Statement of Activities located on page 29.

The expenditures in governmental activities were incurred for supporting the salaries of program and administrative personnel in addition to other efforts related to regional issues. Capital outlay is also included. Total governmental activity expenditures increased by \$30,815,442 or 39% in fiscal

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

year 2024, due largely to increased activity in Early Learning (contributed services), Transportation Planning (State of Missouri Transportation Overlay Program) and Aging (Repack Building).

	Total Cost of Services			Net Cost of Services		
	2025	2024	% Change	2025	2024	% Change
General Government	\$ 4,613,844	\$ 896,246	414.8%	\$ (4,390,282)	\$ (858,509)	411.4%
Aging	20,040,956	20,304,745	-1.3%	(302,159)	(359,756)	-16.0%
Emergency services	13,224,899	10,165,182	30.1%	21,196	1,950,439	-98.9%
Community development	9,346,728	14,122,471	-33.8%	(954,917)	1,188,166	-180.4%
Early learning	43,715,518	43,107,663	1.4%	2,852,731	3,058,918	-6.7%
Transportation planning	13,926,967	18,586,982	-25.1%	973,662	(510,455)	-290.7%
Environmental planning	1,425,769	1,945,446	-26.7%	73,594	(72,938)	-200.9%
Interest on lease liability	195,777	91,504	0.0%	(195,777)	(91,504)	0.0%
	\$ 106,490,458	\$ 109,220,239	-2.5%	\$ (1,921,952)	\$ 4,304,361	-144.7%

The MARC Board established a transportation planning reserve that is funded by 10 percent of the local dues. Additionally, transportation project fees are collected, which are half of a percent of project awards. Fees are assessed in odd years as projects are awarded to local governments and organizations in the region. Because funds are programmed every two years, significant fluctuations in the reserve balance can occur from year to year. The administrative fee was adjusted from 0.05% to 0.10% in 2021. The reserve balance is projected to decrease to \$1,117,457 at the end of 2025.

A funding strategy is in place to raise local funds to supplement federal, state, and existing local funds to sustain the region’s emergency services and homeland security core capacities. The funding received in 2023 and 2024 totaled \$439,820 and \$411,969, respectively. The funds are used to cover expenses in the Special Revenue Fund not funded by federal homeland security and emergency grants.

The MARC Board established a goal to increase the unassigned fund balance to an amount equal to 12 percent of annual direct salaries, fringe benefits, indirect costs and rent, excluding pass-through programs. The 12 percent goal, based upon the 2024 budget, is \$2,624,318. The actual long-term contingency ending balance as of December 31, 2024, is \$1,925,479, or 76%.

Analysis of the Fund Financial Statements

General Fund. Fund balance increased 10% or \$513,780 driven by timing of fringe/indirect cost allocations. Additional information regarding the fund balance may be found on the *Statement of Revenues, Expenditures and Changes in Fund Balance* located on (Exhibit D), page 31.

Special Revenue Fund. The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes, such as transportation planning, homeland security, environmental planning, or meals for the elderly. Grants receivables are recorded only to the extent that allowable reimbursement expenditures have been incurred. The fund balance increased 45% or \$1,595,548 in 2024 largely due to timing of

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT'S DISCUSSION AND ANALYSIS *(Continued)*

expenditures of fee for service programs. Transportation planning Funds awarded from the Regional Overlay Program (MDOT) and the new Aging repack building contributed to the fund balance increase.

Additional information on Expenditures by program area, as reported on the *Statement of Revenues, Expenditure, and Changes in Fund Balance* located on (Exhibit D), page 31.

Capital Projects Fund. MARC's Capital Projects Fund accounts for major infrastructure improvement projects. The fund balance decreased \$497,331, or 6.7% from 2023. Capital projects funds experience fluctuations due to the nature of the projects they finance, which are typically large, long-term investments with varying costs and funding sources. These fluctuations are reflected in the fund's balance, which can increase or decrease based on revenue inflows, expenditure patterns, and project timelines. Additional information regarding the fund balance may be found on the *Statement of Revenues, Expenditures and Changes in Fund Balance* located on (Exhibit D), page 31.

Proprietary Fund. MARC has several activities where users are charged fees for services and are accounted for in the proprietary fund. The net position in the proprietary fund increased \$488,683, or 19.5% from \$2,493,621 in 2023 to \$2,982,304 in 2024. A positive net position indicates that the financial position has improved and that the cost of the services has been covered. Additional information about the proprietary fund may be found on the *Statement of Revenues, Expenses, and Changes in Net Position* located on (Exhibit G), page 34.

Budget to Actual (General Fund)

The Board adopted the 2024 Budget and Workplan in December of 2023. The following schedule details changes from the final budget to actual and is located on pages 64.

Schedule 1 - Revenues, Expenditures, and Changes in Fund Balance – Final Budget to
Actual
General Fund

The following revenue and expenditure categories experienced significant differences for the General Fund between the final budget amount and the actual amount. The explanation of the differences is also included:

Category	Explanation
GENERAL FUND REVENUES	
Net Investment Income	Actual was approximately 2.4 times the budgeted amount due to a renegotiation of MARC's repurchase rate and a net investment addition at a higher than budgeted rate.

MID-AMERICA REGIONAL COUNCIL

MANAGEMENT'S DISCUSSION AND ANALYSIS *(Continued)*

Fees for services/events	Actual was 54% over budget due to transportation fees not budgeted as a result of a timing and utilization issue.
Settlement of vacation and sick leave	Vacation and sick leave was 29% under budget due to timing and usage. Fluctuations from year to year are common.
Fringe benefit/indirect costs allocation	Changes in indirect cost rates impacted fringe benefits, and lead to adjustments in direct salary rate and reallocation of costs which resulted in this category being over budget by approximately 4.5 times the budgeted amount. Estimated rates are used for budget purposes and are adjusted after the budget is approved.
GENERAL FUND EXPENDITURES	
Memberships/periodicals	Membership/periodicals was 28% under budget. Estimates are used for budget purposes and actual usage varies from year to year.
Rent/utilities/maintenance	Actual expenses were more than 20 times the budget amount due to a planned office remodel and the addition of more office space.
Supplies	Actual expenses were over budget by 14 times the budget amount due to a planned office remodel and the addition of more office space.
Training	Training was 73% under budget. MARC provides training on an as needed basis and can fluctuate from budget due to timing and availability.

Capital Assets

The total amount of capital assets for MARC at December 31, 2024, was \$17,881,357 net of accumulated depreciation. This is an increase of \$7,151,046, or 67% over 2023. This investment of capital assets includes office furniture and equipment, vehicles, 911 equipment, traffic signal equipment, buildings, and leasehold improvements. The increase also reflects the purchase of additional Emergency Communication System software contractual obligations (SBITAs) and equipment. Additional information on MARC's capital assets can be found in note (3)C.

Long-Term Debt Activity

As of December 31, 2024, MARC had \$9,026,366 in long-term debt related to lease and subscription obligations which represent a long-term contractual agreement. \$2,559,487 is due within one year while \$6,466,879 is due in more than one year. Additional information on MARC's debt can be found in Note 3(F).

Economic Condition and Next Year's Programs

The Greater Kansas City region, of which MARC is a part of, continues to have a strong economy with committed communities and successful and engaged people. Navigating the financial aspects of grants can be a complex but crucial process, impacting the ongoing management of awarded funds. Effective grant budgeting involves careful planning, clear communication, and meticulous recordkeeping. Fluctuations in grant funding occur due to several factors, including global events, economic shifts, and changes in funding priorities. These changes can impact MARC's operations and projects. MARC's programs and activities are funded by a wide variety of grants from federal, state, and local governments and contributions from foundations and civic organizations. The 2025 budget projects a decrease of \$5,064,789, or 4.13%, in expenditures over the revised 2024 budget. The decrease is almost entirely in the Special Revenue fund and reflects the normal fluctuations in grant activity.

Requests for Information

This financial report is designed to provide a general overview of MARC's financial activity. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance and Administration, Mid-America Regional Council, 600 Broadway, Suite 200, Kansas City, Missouri 64105-1659.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS

(1) Reporting Entity and Significant Accounting Policies

A. The Reporting Entity

Mid-America Regional Council (MARC) was formed in 1972 as a voluntary coalition of local governments in response to the need for regional cooperation in Greater Kansas City. MARC is a governmental nonprofit corporation, organized and existing pursuant to Section 12-716 et. seq. and 12-2901 et. seq. of the Kansas Statutes Annotated, and Article VI, Section 9 of the Missouri Constitution and Sections 70.210 et. seq. of the Revised Statutes of Missouri. Membership of the MARC Board of Directors consists of representatives from each of the nine member counties and the six largest cities in the region, as well as representatives from the smaller cities by county. In addition to serving as a forum for regional collaboration, MARC also provides technical assistance to local governments, implements state and federal programs in the region, conducts short-term and long-term planning, and serves as a central resource for regional demographic and economic information.

MARC's basic financial statements include the accounts of all MARC functions and activities. The criteria used to determine whether component units (separate governmental units, agencies or nonprofit corporations associated with MARC) should be disclosed in the basic financial statements of MARC include appointment of a voting majority, imposition of will, imposition of financial benefit to or burden on MARC, and fiscal dependency.

In November 2004, the MARC Board of Directors formed a nonprofit corporation, Mid-America Regional Council Community Services Corporation (MARC CSC), which was approved by the Internal Revenue Service for operation as a 501(c)3 organization. The nonprofit essentially allows MARC to apply for and receive grants that otherwise are awarded only to 501(c)3 organizations. All MARC CSC grants are contracted or passed-through to MARC for management. The members of the MARC Board of Directors' Budget & Personnel Committee form the Board of Directors of MARC CSC. MARC staff manages and processes all programs and activities for MARC CSC. Since MARC holds corporate powers for MARC CSC, the financial activity of MARC CSC falls within the definition of a component unit and is presented as a blended component unit that is reported as a major governmental fund in this report.

B. Significant Accounting Policies

The accounting policies of MARC conform to accounting principles generally accepted in the United States as applicable to governmental entities.

Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the *Statement of Net Position* and the *Statement of Activities*) report information on all of the governmental activities (funds) of MARC; fiduciary activities (funds) are excluded because the funds are not available for general governmental activities. The effect of interfund activity has been removed from these statements except where interfund services were provided and used.

The *Statement of Activities* demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Indirect expenses* are allocated on a monthly basis to functions and programs based upon the actual incurred worked salaries and fringe benefits. The formula is negotiated and approved by MARC's federal cognizant agency, U.S. Department of Health and Human Services. *Program revenues* include: (1) charges to or contributions from individuals or organizations who purchase, use or directly benefit from the goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Local government appropriations and other items not properly included among program revenues are reported instead as *general revenues*.

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

MARC's funds are grouped into three broad fund categories for financial statement presentation purposes. Governmental funds include the General, Special Revenue, and Capital Projects Funds. Proprietary Funds include the Enterprise Fund. Fiduciary Funds include the Private-Purpose Trust and Custodial Funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. See exhibits C through J in the basic financial statements section.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS *(Continued)*

MARC reports the following major governmental funds:

The *General Fund* is MARC's primary operating fund. It accounts for all financial resources of MARC, except those required to be accounted for in another fund.

The *Special Revenue Fund* is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. MARC receives a variety of grants from multiple sources, including formula and discretionary grants from Missouri, Kansas and the federal government and contributions for specific programs from private foundations and civic organizations.

The *Mid-America Regional Council Community Services Corporation* (MARC CSC) is a 501(c)3 corporation that was formed in 2004 to allow MARC to receive grants from certain corporations and private foundations that only donate to agencies with nonprofit status. The activity of MARC CSC is accounted for in a Special Revenue Fund.

The *Capital Projects Fund* is used to account for the funds used to upgrade the 911 call-taking equipment in the region. The upgrade project is funded by the participating county governments in accordance with an interlocal coordinating agreement.

The *Proprietary Fund*, more specifically an Enterprise Fund, accounts for those activities that operate much like those in the private sector, such as MARC's Government Training Institute, which charges fees to its customers or users for classes, conferences or consulting services. The determination of net income is necessary or useful to sound financial administration.

Additionally, MARC reports the following fiduciary fund types:

The *Private-Purpose Trust Fund* is used to account for donations from foundations and others for the purpose of awarding scholarships and grants to those involved in child care and early learning programs.

The *Custodial Fund* is used to report resources held by MARC in a purely custodial capacity using the economic resources measurement focus. The custodial fund includes funds held for: (1) the Kansas and Missouri Metropolitan Culture District (Bi-State Commission), which supports Union Station; (2) the Mid-America Regional Council Solid Waste Management District (SWMD), a governmental organization; (3) the Metropolitan Official Health Agencies of the Kansas City Area (MOHAKCA), a 501(c)3 nonprofit organization; (4) Aim4Peace, a youth violence prevention program; (5) DEPO KC, a 501(c)3 nonprofit organization and (6) Climate Action KC, a 501(c)3 nonprofit organization.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, MARC considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Prepaid items are accounted for using the allocation method.

Grant revenue and interest income associated with the current fiscal period are considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when MARC receives cash.

MARC has negotiated fringe benefit and indirect cost allocation rates with the U.S. Department of Health and Human Services. Indirect costs are allocated to each function based upon the actual direct salaries and fringe benefits incurred during the month. There may be surpluses or deficits of the actual incurred costs compared to the allocated costs. The 2024 surpluses or deficits will be carried forward into the 2025 rate negotiations.

The Proprietary Fund employs the accrual basis of accounting wherein revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. MARC follows the cost of services or “economic resources” measurement focus, under which all assets and all liabilities associated with the activity of providing training and consulting services are included within the fund. Operating revenues and expenses for Proprietary Funds are those that result from providing training and consulting services. All other revenues and expenses are considered non-operating.

Fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Assets, Liabilities and Net Position

Cash and Cash Equivalents — Interest bearing deposit accounts are reported at cost plus accrued interest. MARC considers demand deposits and investments purchased with an original maturity of three months or less to be cash and cash equivalents.

Investments — MARC reports its investments at fair value, which is determined by quoted market prices. Investment income, including changes in the fair value of investments, is recognized as revenue in the financial statements.

Accounts Receivable and Unearned Revenue — Granting Agencies — MARC's programs and activities are funded by a variety of sources including contributions by member governments; formula and discretionary grants from Missouri, Kansas and the federal government; and contributions for specific programs from private foundations and civic organizations. Grant revenue is earned as expenditures are incurred and all eligibility requirements imposed by the provider have been met. The cash inflow from the granting agencies varies from the expenditures resulting in receivable or unearned revenue balances, which are calculated on a grant-by-grant basis.

Inventories and Prepaid Items — MARC deems that inventory of materials and supplies are immaterial to the financial statements. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. MARC uses the consumption method for all prepaid items. All prepaid items are recognized as assets when purchased and expenditures are recognized when actually used.

Capital Assets — Capital assets, which include office furniture and equipment, vehicles, 911 call-taking equipment, traffic signal equipment and leasehold improvements that exceed \$10,000 and have an estimated useful life of greater than one year are recorded at cost and are accounted for on the government-wide financial statements, rather than in governmental funds. Donated capital assets, works of art, and similar items received in a service concession arrangement are reported at acquisition value. Capital assets are depreciated over the estimated useful life using the straight-line method.

MARC estimates the useful life as follows:

Office furniture and equipment	7 years
Radios, computer, and non-office equipment	3 years
Vehicles	5 years
911 call-taking equipment	5 years
911 RAMBIS equipment	5 years
Traffic signal equipment	3 years
Buildings	25 years
Right to use assets - building and SBITA	Life of associated lease/contract
Leasehold improvements	Over the remainder of lease at time of improvement

Deferred Outflows and Inflows of Resources — In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Vacation and Sick Leave — Vacation leave accrues on a bi-weekly basis and is available to all regular full-time and certain part-time employees of MARC in varying annual amounts depending upon the length of service. Employees are allowed to accumulate and carry forward a maximum of 240 hours. Employees may accrue vacation leave beyond 240 during the calendar year up to and including the pay period in which February 1 falls. At the end of that pay period, excess vacation leave balances over 240 hours will be forfeited. Any regular employee leaving MARC’s service who has been employed for at least three years shall be compensated for all accumulated, unused vacation leave up to a maximum of 240 hours. Employees hired prior to February 10, 2024, will be compensated for all accumulated, unused vacation leave up to a maximum of 240 hours regardless of their time of employment.

Sick leave benefits accrue bi-weekly with a maximum accumulation of 800 hours for both full-time and certain part-time employees. Upon separation of employment, employees hired after February 10, 2024, will not receive compensation for accrued sick leave, unless they meet the criteria for retirement. Employees hired prior to February 10, 2024, will receive compensation for an amount equaling 25% of their accrued sick leave at their

current rate of pay on February 10, 2024. If an employee separates employment prior to meeting the criteria set out for retirement, they will be paid out the banked amount upon separation.

Upon retirement, any employee who has reached age 60 and has been employed at MARC for 10 or more years will be compensated 50% of their current sick leave balance, at their rate of pay at the time of separation, up to a maximum 350 hours in one lump sum payment. This will replace and not be in addition to the value of leave banked as of February 10, 2024.

Compensated absences are accrued when incurred and reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

For the year ended December 31, 2025, the financial statements include the adoption of GASB Statement No. 102, *Certain Risk Disclosures* (GASB 102). The adoption of GASB 102 did not have a material impact on the financial statements.

Other Postemployment Benefits (OPEB) — For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of MARC's Other Postemployment Benefit Plan (the Plan) administered by Midwest Public Risk and additions to and deductions from the Plan fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The Plan is not funded, therefore the Plan has no fiduciary net position to report.

Leasing Arrangements - For arrangements where MARC is a lessee, a lease liability and a right to use (RTU) intangible asset are recognized at the commencement of the lease term. RTU assets represent MARC's right to use underlying assets for the lease term and lease liabilities represent MARC's obligation to make lease payments arising from the lease. RTU assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term.

For fund statements, an expenditure and other financing source will be reported in the period the lease is initially recognized. The expenditure and other financing source should be measured as noted in the previous paragraph. Subsequent governmental fund lease payments are accounted for consistent with the principles for debt service payments on long-term debt.

MARC uses a rate that represents what would be available to them in the current market environment to calculate the present value of lease payments when the rate implicit in the

lease is not known. MARC includes lease extension and termination options in the lease term, if after considering relevant economic factors, it is reasonably certain MARC will exercise the option. MARC has elected to combine lease and non-lease components for all lease contracts and also has not recognized RTU assets and lease liabilities for lease terms for 12 months or less.

Subscription-Based Information Technology Arrangements (SBITA) - MARC accounts for SBITAs when the government contracts for the right to use another party's software. This Statement requires SBITAs, previously classified as an expense, be recognized as intangible right-to-use subscription assets with corresponding subscription liabilities.

Due to/Due From Other Funds — During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. These are classified as “due to other funds” and “due from other funds.” These receivables and payables between governmental funds are eliminated in the *Statement of Net Position*.

Interfund Transfers — Permanent reallocations of resources between funds of MARC are classified as interfund transfers. For the purposes of the *Statement of Activities*, all interfund transfers between individual governmental funds have been eliminated.

Equity Classifications — In the government-wide financial statements, equity is classified as net position and is displayed in two components:

- a. Net investment in capital assets — consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any debt or lease liabilities that are attributable to the acquisition of those assets.
- b. Unrestricted — is the balance of net position that does not meet the definition of “restricted” or “net investment in capital assets.” Restricted net position consists of net positions with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. MARC does not have any restricted assets as of December 31, 2025.

Fund Balances — Governmental funds report fund balances in classifications that are based primarily on the extent to which MARC is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. When an expenditure is incurred for purposes for which amounts in either the committed or unassigned resources may be used, the committed resources are used before unassigned resources. As of December 31, 2025, fund balances for government funds are made up of the following:

- a. Nonspendable Fund Balance — includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. MARC’s prepaid items are considered nonspendable fund balance.
- b. Restricted Fund Balance – amounts that are required by external parties to be used for a specific purpose. Constraints are externally imposed by creditors, grantors, contributors or laws, regulations or enabling legislation.
- c. Committed Fund Balance — includes amounts that can only be used for the specific purposes determined by the highest level of formal action through an approved resolution of MARC’s highest level of decision-making authority, the MARC Board of Directors. Commitments may be changed or lifted only by the MARC Board taking the same formal action that imposed the constraint originally. In January 2012, the MARC Board approved a resolution to commit a portion of the fund balance for employee accumulated vacation and sick leave benefits. This value is updated as of December 31st for each fiscal year.
- d. Assigned Fund Balance – amounts intended to be used for specific purposes. This is determined by the governing body, the budget and finance committee or a delegated MARC official. MARC has certain programs with reserves which are classified as assigned fund balance.
- e. Unassigned Fund Balance — is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Use of Estimates — The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(2) Stewardship, Compliance and Accountability

Although the annual budget is reviewed and approved by the Board of Directors, it should not be considered a legally adopted budget. The MARC annual budget is a management tool that assists its users in analyzing financial activity for its fiscal year ending December 31. MARC’s primary funding source is federal, state, and local grants, which have grant periods that may or may not coincide with the fiscal year. These grants commonly are for a 12-month period; however, they can be awarded for periods shorter or longer than 12 months.

Because of MARC's dependency on federal, state and local budgetary decisions, revenue estimates are based on the best available information as to potential sources of funding. The MARC annual budget differs from that of a local government in two respects: (1) the uncertain nature of grant awards from other entities, and (2) conversion of grant budgets to a fiscal year basis.

The resultant annual budget is subject to constant change due to:

- Increases/decreases in actual grant awards from estimated awards.
- Changes in grant periods.
- Unanticipated grant awards not included in the budget.
- Expected grant awards that fail to materialize.

The Board of Directors formally approves the annual budget but greater emphasis is placed on complying with the grant budget, terms and conditions on a grant-by-grant basis. These terms and conditions usually specify the period during which costs may be incurred and outline budget restrictions or allowances.

MARC follows these procedures in establishing the budgetary data reflected in the fund financial schedules:

- In November, the Executive Director submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The budget document also includes a proposed revised budget for the current year. The operating budgets include proposed expenditures and the means of financing them.
- Prior to January 1, the Board of Directors formally approves the budget document.
- The approved annual budget is used as a control device for the General Fund, 911 Equipment Capital Project Fund and the Proprietary Fund. The individual grant period budgets are used as the control device within the Special Revenue Fund.

(3) Detailed Notes on All Funds

A. Cash and Investments

The articles of agreement and bylaws of MARC contain no provisions regarding deposits and the types of investments that may be purchased. MARC's Board-approved investment policy allows investments in the following:

1. U.S. Treasury securities.
2. Securities issued by agencies of the U.S. Government.
3. Repurchase agreements.
4. Collateralized public deposits (certificates of deposits).
5. Banker's acceptances.
6. Commercial paper.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS *(Continued)*

MARC maintains various deposit accounts to handle the cash receipts, disbursements and idle cash balance.

The carrying value of deposits and investments are summarized as follows:

	Governmental Activities	Fiduciary Funds	Total
Deposits	(\$ 213,492)	\$ 27,432	(\$ 186,060)
Certificates of deposit	1,750,000	—	1,750,000
Investments			
Money market funds	—	68,958	68,958
Repurchase security agreement (cash equivalent)	18,278,204	2,969,898	21,248,102
U.S. government agency securities	3,755,588	—	3,755,588
Total cash and investments	<u>\$ 23,570,300</u>	<u>\$ 3,066,288</u>	<u>\$ 26,636,588</u>

Custodial Credit Risk — Custodial credit risk represents the risk that, in the event of the failure of a depository financial institution, MARC will not be able to recover deposits and investments or will not be able to recover collateral securities that are in the possession of an outside party. MARC's policy is to collateralize bank deposits and repurchase agreements sufficient to provide a level of security such that the market value of collateral should be at least 100 percent of the fair value of deposits and investments. At December 31, 2025, MARC had deposits of \$396,354 in excess of FDIC limits.

MARC's policies do not require investments to be collateralized. MARC's investments in U.S. government agency securities are considered to be exposed to custodial credit risk, as they are uninsured, unregistered securities held by the counterparty or its agent, but not in MARC's name. The investments underlying the repurchase securities are uninsured, unregistered securities held by the counterparty in MARC's name.

Interest Rate Risk — To manage this risk, MARC's policy requires that investments in bankers acceptances and commercial paper have an original maturity of no more than 180 days, that all other investments mature no more than five years from the date of purchase and that the weighted average maturity of all outstanding investments not exceed three years from the date of purchase.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

The following table summarizes the maturities of investments at December 31, 2025:

	Fair Value December 31, 2025	Investment Maturities (in Years)	
		Less Than 1	1 - 5
Repurchase security agreement	\$ 21,248,102	\$ 21,248,102	\$ —
Money market funds	68,958	68,958	
U.S. government agency securities	3,755,588	1,510,676	2,244,912
	<u>\$ 25,072,648</u>	<u>\$ 22,827,736</u>	<u>\$ 2,244,912</u>

Credit Risk and Concentration of Credit Risk — MARC’s investment policy does not restrict investments by rating, but does require diversification by security type and issuer as follows:

Investment Type	Maximum % of Portfolio
U.S. treasury securities	100 %
Collateralized time and demand deposits	100
U.S. government agency securities	100
Collateralized repurchase agreements	50
Callable U.S. government agency securities	30
Commercial paper	10
Bankers' acceptances	10

MARC’s investments in U.S. government agency securities include Freddie Mac (4%) and Federal Home Loan Bank (11%) securities. All of the securities are rated AA+ by Standard and Poors and Aa1 by Moody’s Investor Service.

MARC categorized its fair value measurements applicable for reporting its investments within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. MARC’s U.S. government agency securities are valued using quoted market prices (Level 1 inputs).

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

B. Grants Receivable and Unearned Revenue – Granting Agencies

Grants receivable and unearned revenue are calculated on a grant-by-grant basis and are summarized by program below:

	Accounts Receivable – Granting Agencies	Unearned Revenue - Granting Agencies
Support for Exhibit C – Balance Sheet – Governmental Funds		
MARC		
Special Revenue Fund:		
Aging	\$ 2,276,435	\$ 5,555,842
Emergency services	1,103,078	70,149
Community development	40,818	1,713,849
Early learning	7,142,233	427,175
Transportation planning	5,791,823	757,347
Environmental planning	265,757	39,269
Total Special Revenue Fund	16,620,144	8,563,631
MARC CSC		
Community development	3,966	—
Total Governmental Funds	\$ 16,624,110	\$ 8,563,631

The special revenue grants of MARC CSC, SWMD, Bi-State and MOHAKCA are passed through to MARC for grant management purposes, which often results in grant receivables and/or unearned revenues recorded in the organizations for the same grants. To avoid duplication of the grant receivable and unearned revenues in the above summary prepared on a grant-by-grant basis, the grant receivables and unearned revenues have been eliminated from the MARC grant receivable and unearned revenue balances and are shown instead in MARC CSC, SWMD, Bi-State and MOHAKCA.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

C. Capital Assets

Capital asset activity for the year ended December 31, 2025 was as follows:

	Balance January 1, 2025	Increases	Decreases	Balance December 31, 2025
Governmental activities:				
Capital assets not being depreciated:				
Construction in progress:				
Emergency communication system	\$ 1,745,664	—	(\$ 1,745,664)	\$ —
Aging repack facility	2,883,973	—	(2,883,973)	—
Capital assets, depreciable and amortizable:				
Office furniture and equipment	2,283,470	107,988	(222,624)	2,168,834
911 call-taking equipment	11,433,608	2,269,060	(298,309)	13,404,359
911 RAMBIS equipment	6,367,899	—	(16,832)	6,351,067
Traffic signal communications equipment	211,398	—	(82,528)	128,870
Traffic signal program vehicles	386,648	—	—	386,648
Buildings - Head Start program	2,725,000	2,870,642	—	5,595,642
Building right-to-use-asset - lease	4,491,035	—	—	4,491,035
Technology right-to-use-asset - SBITA	10,640,981	—	(301,248)	10,339,733
Leasehold improvements	2,223,231	—	(27,073)	2,196,158
Capital assets at historical cost	40,763,270	5,247,690	(948,614)	45,062,346
Less accumulated depreciation and amortization for:				
Office furniture and equipment	2,112,181	95,357	(222,992)	1,984,546
911 call-taking equipment	9,420,926	1,172,281	(298,309)	10,294,898
911 RAMBIS equipment	6,140,835	52,438	(16,832)	6,176,441
Traffic signal communications equipment	211,398	—	(82,528)	128,870
Traffic signal program vehicles	214,532	66,724	—	281,256
Buildings - Head Start program	2,061,917	185,550	—	2,247,467
Building right-to-use-asset - lease	2,939,586	979,862	—	3,919,448
Technology right-to-use-asset - SBITA	3,226,024	1,818,974	—	5,044,998
Leasehold improvements	1,184,151	137,414	(28,057)	1,293,508
Total accumulated depreciation and amortization	27,511,550	4,508,600	(648,718)	31,371,432
Capital assets, depreciable and amortizable, net	13,251,720	739,090	(299,896)	13,690,914
Governmental activities capital assets, net	\$ 17,881,357	\$ 739,090	(\$ 4,929,533)	\$ 13,690,914

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

Depreciation and amortization expense was charged to MARC’s functions/programs as follows:

Governmental Activities		
Aging		\$ 192,870
Emergency services		2,725,307
Community development		—
Early learning		254,451
Transportation planning		5,994
MARC local		1,329,978
Total depreciation and amortization expense - governmental activities		\$ 4,508,600

D. Interfund Receivables, Payable and Transfers

The composition of interfund balances as of December 31, 2025, is as follows:

	Due From Other Funds	Due to Other Funds
Major governmental funds:		
General fund	\$ —	\$ 7,137,017
Special revenue fund	—	2,092,931
Capital projects fund	6,751,020	—
Proprietary fund	2,478,928	—
	<u>\$ 9,229,948</u>	<u>\$ 9,229,948</u>

The cash receipts and disbursements for all of the funds shown above, except MARC CSC, are processed through the General Fund. MARC uses the “due to other funds” and “due from other funds” accounts to properly record the amounts transferred among the funds.

Some of the grants that MARC receives for its programs require matching funds. Often, the grants are matched by donated services or funds from area governments and organizations involved in the programs. In addition, MARC often matches grants by using the local appropriation funds recorded in the General Fund. MARC also transfers funds to the Proprietary Funds to support those activities. As match funds are needed, transfers are made to move the funds from the General Fund to the Special Revenue and Proprietary Funds. These transfers will not be repaid.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

	Transfers
Special Revenue Fund	\$ 244,587
General Fund	(262,752)
Capital Projects Fund	—
Proprietary Fund	18,165
Net transfers	\$ —

E. Child Care Scholarship Fund

The Child Care Scholarship Fund was established in 1991 with initial contributions of \$10,000. The fund balance has grown to \$41,168 as of December 31, 2025. This fund is used to account for contributions and investment income revenue and the scholarships and grant awards. Many of the contributions are reserved, such that only the investment income may be used for scholarship awards. Other contributions are designated specifically for an annual awards program. The Metropolitan Council on Early Learning, a MARC committee, determines each year the amount and recipients of the scholarships and grant awards. During fiscal year 2025, the net appreciation in fair value of investments was \$934, which is available for expenditure. The council awarded \$9,722 in scholarships or grants in 2012. No scholarships were awarded from 2013 to 2025. The fund is reported as a private-purpose trust and is not included in the government-wide financial statements but is included on the *Statement of Fiduciary Net Position* and the *Statement of Changes in Fiduciary Net Position*.

F. Leases and Subscriptions

The following is a summary of changes in lease and SBITA liabilities:

	Balance January 1, 2025	Additions	Reductions	Balance December 31, 2025	Due Within One Year
Leases	\$ 1,611,410	\$ —	\$ 1,010,562	\$ 600,848	\$ 600,848
SBITAs	7,414,956	—	1,598,740	\$ 5,816,216	\$ 975,435
	\$ 9,026,366		\$ 2,609,302	\$ 6,417,064	\$ 1,576,283

MARC has entered into a lease arrangement for a building, which contains no material variable lease payments. The lease contract expires in 2026. The right to use assets are intangible assets and are recorded as a right to use asset on the Statement of Net Position. During 2025, MARC paid \$1,038,297 in lease payments. The following represents the future

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

minimum lease payments for governmental activities required under the lease arrangements as of December 31:

Fiscal Year	Principal	Interest	Total
2026	600,848	4,826	605,674
	<u>\$ 600,848</u>	<u>\$ 4,826</u>	<u>\$ 605,674</u>

MARC entered into various SBITA contracts that extend through 2031 for various types of software and technology contracts. The right to use subscription assets are intangible assets and are recorded as a right to use asset on the Statement of Net Position. During 2025, MARC paid \$1,632,667 in lease payments. The following represents the future minimum lease payments for governmental activities required under the lease arrangements as of December 31:

Fiscal Year	Principal	Interest	Total
2026	\$ 975,435	\$ 133,777	\$ 1,109,212
2027	934,020	111,338	1,045,358
2028	988,314	89,855	1,078,169
2029	1,030,209	67,124	1,097,333
2030	912,568	43,429	955,997
Thereafter	975,670	22,440	998,110
	<u>\$ 5,816,216</u>	<u>\$ 467,964</u>	<u>\$ 6,284,180</u>

G. 911 Equipment Fund

MARC collects funds from the eleven counties participating in the regional 911 system to build resources to replace 911 call-taking equipment and maintain a state-of-the-art system. All 41 public safety answering points are connected to one of three host sites. All three host sites have transitioned to updated equipment and have been upgraded to the new technology. Most equipment is on a four-year replacement lifecycle.

In 2025, \$6,753,516 has accumulated in the Capital Projects Fund; this amount is included in assigned fund balance on the Balance Sheet — Governmental Funds (Exhibit C).

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

	Balance January 1, 2025	Additions	Purchases	Balance December 31, 2025
Capital Project Fund Reserves	\$ 6,896,123	\$ 1,737,735	\$ 1,880,346	\$ 6,753,512

As work begins on each answer point, the costs are accumulated in capital assets — construction in progress until the answer point is completed. The amount of construction in progress varies from year to year based on timing of project completion. In 2025, \$1,745,664 in equipment was placed in service.

H. Accrued Vacation and Sick Leave

Accrued employee vacation and sick leave benefits are included on the *Statement of Net Position* and are typically liquidated in the General Fund. The following is a summary of changes in accrued employee vacation and sick leave benefits:

	Balance January 1, 2025	Additions	Reductions	Balance December 31, 2025	Due Within One Year	Due within more than one year
Vacation	\$ 842,992	\$ 1,062,317	\$ 1,026,251	\$ 879,058	\$ 879,058	\$ —
Sick leave	498,320	138,951	31,368	605,903	85,628	520,275
	<u>\$ 1,341,312</u>	<u>\$ 1,201,268</u>	<u>\$ 1,057,619</u>	<u>\$ 1,484,961</u>	<u>\$ 964,686</u>	<u>\$ 520,275</u>

(4) Other Information

A. Risk Management

MARC is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

MARC is a member of Midwest Public Risk of Missouri (MPR), a nonprofit corporation consisting of local governments and political subdivisions. MPR was formed as a public entity risk retention pool, operating as a common risk management and insurance program to cover health and dental, workers compensation, and property and casualty claims for its members. Midwest Public Risk of Missouri (MPR) and Midwest Public Risk of Kansas (MPR of Kansas) signed risk-sharing agreements and contracted with Midwest Public Risk (MPR — Administrative) to provide administrative services to both pools.

MPR was established as an assessable pool and accounting records are maintained for each line of coverage on a policy year (July to June) basis. MARC pays annual premiums to MPR for all coverages. The agreement with MPR provides that MPR will be self-sustaining through member premiums. MPR has the authority to assess members for any deficiencies of

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

revenues under expenses for any single plan year. Likewise, MPR has the authority to declare refunds to members for the excess of revenues over expenses relating to any single plan year. MPR has distributed multiple refunds of contributions for the property, liability and workers compensation programs in fiscal years 2007 through 2025.

MARC has the following types of insurance coverage and deductibles through MPR for the period July 1, 2024 through June 30, 2025:

Coverage	Deductible
General liability	\$ 5,000
Public officials liability	5,000
Crime and fidelity	5,000
Workers compensation	Not applicable
Auto physical damage	1,000
Property	2,500

B. Contingent Liabilities

Use of federal, state, and local grant funds is subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under terms of the grant. To the extent such disallowances involve expenditures under the subcontracted arrangements. MARC generally has the right of recovery from such third parties. Based on prior experience, management believes MARC will not incur significant losses on possible grant disallowances.

C. Employee Retirement Plans

Defined Contribution Retirement Plan — MARC provides retirement benefits for all regular employees (excluding interns and seasonal employees) through a defined contribution retirement plan (Mid-America Regional Council Retirement Plan). MARC is the sole participating employer of this plan, which currently includes 154 active and 24 inactive participants. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Qualified employees are eligible to participate after six months of continuous service. This retirement plan was authorized by the MARC Board of Directors in March 1982 and is amended from time to time by the board's Budget and Personnel Committee. MARC is the plan administrator but contracts with the Principal Financial Group for investment management and record-keeping services. Since MARC is not holding assets or resources for the plan, the plan is not included as a pension trust fund in the basic financial statements.

MARC contributes 7.25 percent of monthly employee earnings to the retirement plan. Employees are vested at 20, 40, 60, 80 and 100 percent after two, three, four, five, and six

years of continuous service, respectively. MARC's contributions for, and interest forfeited by, employees who cease employment before becoming fully vested are used to reduce MARC's current period contribution. Employees may make voluntary contributions to the plan and these contributions are fully vested immediately.

MARC's total payroll in fiscal year 2025 was \$14,770,183. Base salaries totaling \$13,444,364 were used to calculate the required employer contribution of \$974,716, representing 7.25 percent of such salaries. This employer contribution was reduced by forfeitures of \$101,862 and the net was paid in 2025. Total retirement expense was \$872,855 in 2025. Employees voluntarily contributed an additional \$18,265 to the plan.

The retirement plan provides a menu of 36 investment options. The funds are invested according to directions made by the participants for both the employer and the employee contributions.

401k Savings Plan — MARC offers its employees a savings plan (Mid-America Regional Council Savings Plan) created in accordance with Internal Revenue Code Section 401(k). The plan, available to all qualified MARC employees, permits them to defer a portion of their salary until future years. In 2008, the plan was modified to also allow qualified MARC employees to contribute to a Roth 401(k) account instead of, or in addition, to the regular 401(k) account in accordance with applicable IRS rules and regulations. MARC is the plan administrator but contracts with the Principal Financial Group for investment management and record-keeping services. Since MARC is not holding assets or resources for the plan, the plan is not included as a pension trust fund in the basic financial statements.

Participation in the plan is voluntary. Withdrawal from the savings plan is not allowed until age 59½, termination, retirement, death or unforeseeable emergency. MARC provides an employer matching contribution equal to 50 percent of the employee (401(k) and/or Roth 401(k)), contribution up to a maximum of 2 percent of participant's compensation. Matching contributions by the employer are 100 percent vested immediately to the employee. The amounts of employer and employee contributions made in 2025 were \$276,602 and \$1,014,311, respectively. The savings plan provides a menu of 36 investment options. The funds are invested according to directions made by the participants for both the employer and the employee contributions.

D. Third-party Contractual Services and Contributed Services

A significant portion of the grant funds received by MARC is passed through to third-party subcontractors via contractual agreements between MARC and the subcontractors. The costs incurred by the subcontractors are accumulated through submitted claims for reimbursements and are recorded as contractual services expenditures.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

Many of the subcontractors provide donated goods and services as match for various grants. These donated goods and services are called contributed services and are reflected as revenue and expenditures in accordance with the guidance of the individual grants. The amounts of such services are recorded in the accompanying basic financial statements at their estimated fair value at date of receipt.

The subcontractors’ contractual and contributed services for the year ended December 31, 2025, are:

	Contractual Services	Contributed Services
Aging	\$ 2,951,259	\$ 6,162,133
Emergency services	2,620,475	—
Community development	2,822,278	—
Early learning	28,823,150	—
Transportation planning	6,267,057	—
Environmental planning	901,648	—
	<u>\$ 44,385,867</u>	<u>\$ 6,162,133</u>

DRAFT

E. Postemployment Health Care Plan

Plan Description

MARC provides retiree health care benefits through Midwest Public Risk (MPR), which is a risk pool comprised of about 86 entity members. MPR functions as an agent multiple-employer plan. The pool arrangement that MPR maintains to collect premiums and pay claims/administrative costs does not qualify as an “OPEB Plan”. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75. Though retiree benefits are not directly paid by MARC, they are implicitly paid over time through employer subsidization of active premiums that would be lower if retirees were not part of the experience group. The OPEB Plan does not issue a publicly available stand-alone financial report.

Benefits Provided

Employees who have attained age 60 and retire from active employment with 10 consecutive years of service are eligible for retiree benefits. Retirees (and their dependents) may elect to continue coverage in the medical and dental plans offered through MPR. Upon payment of required contributions, retirees may continue coverage until becoming eligible for Medicare, which is currently age 65. Spousal coverage may continue for up to three years upon retiree death or retiree attainment of age 65. In any event, spousal coverage is not available beyond spouse age 65.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

Employees Covered by Benefit Terms

At December 31, 2025, the following employees were covered by the benefit terms:

	2025
Membership Data	
Active Employees (Health and Life)	152
Retiree Health Benefits Plan:	
Retired Members	—
Spouses of Retired Members	—
Total	152
Retiree Life Insurance Plan:	
Retired Members	—
Total	152

Total OPEB Liability and Changes in OPEB Liability

MARC's total OPEB liability was based on an actuarial valuation dated July 1, 2023 that was rolled forward using standard actuarial techniques to a measurement date of June 30, 2025. Changes in the OPEB liability are as follows:

	2025
Net OPEB liability - beginning of year	\$ 197,339
Service costs	17,989
Interest	8,828
Changes in benefit terms	—
Differences between actual and expected experience	16,744
Changes in assumptions and inputs	(67,045)
Employer contributions (benefit payments)	—
Net OPEB liability - end of year	\$ 173,855

The retirement, disability and turnover assumptions were updated when applicable based on the latest LAGERS pension valuation.

The mortality assumption was changed from Society of Actuaries Scale MP-2020 Full Generational Improvement to the Society of Actuaries Scale MP-2021 Full Generational Improvement.

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

The average of the S&P Municipal Bond 20 Year High Grade and Fidelity GO AA-20 Year published yields was evaluated to determine the discount rate. The selected rates are 4.0% (beginning-of-year measurement) and 4.1% (end-of-year measurement).

Actuarial valuations reflect a long-term perspective and involve estimates of the value reported amounts and assumptions about the probability of events far into the future. Actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities. These calculations are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The actuarial calculations have been based on the substantive plan in place at the time of valuation and on the pattern of cost sharing between the employers and members to that point.

The OPEB liability would typically be liquidated by the General Fund. Since there are no retirees that are actively participating in the plan, there are not current benefit payments being made or projected to be made in 2025, therefore the entire OPEB liability is long term.

Actuarial Assumptions and Other Inputs:

The total OPEB liability in the July 1, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Assumptions	
Actuarial cost method	Entry Age Normal
Valuation date	July 1, 2023
Measurement date	June 30, 2025
Salary scale	4.00%
UAAL amortization method	Level percent of pay
Discount rate	4.80% (End of Year)
	4.10% (Beginning of Year)
Mortality	Society of Actuaries Pub-2016 Public Retirement Plans Headcount - Weighted General Mortality tables using Scale MP-2021 Full Generational Improvement
Health care cost trend rate	7.25%
Ultimate trend rate	5.00%
Year of Ultimate trend rate	2034

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

To the extent Plan assets are projected to be sufficient to make projected benefit payments, the discount rate will equal the expected return on such assets. To the extent the Plan is not projected to be sufficient to make future benefit payments, the yield or index for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher should be factored in. Plan assets do not apply to MARC’s program. In order to determine the municipal bond rate, we took the average of the published yields from the S&P Municipal Bond 20-year High Grade and the Fidelity GO AA-20 Years indexes. The selected average rates are 4.1% and 4.8%, as of the beginning and end of year measurement dates, respectively. These were used as the discount rates to determine present value costs.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate:

The following presents the total OPEB liability of MARC, as well as what MARC’s total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	Current Single Discount		
	1% Decrease (3.8%)	Rate Assumption (4.8%)	1% Increase (5.8%)
Total OPEB Liability	\$ 186,363	\$ 173,855	\$ 162,269

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates:

The following presents the total OPEB liability of MARC, as well as what MARC’s total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current healthcare cost trend rates:

	1% Decrease	Current Trend	1% Increase
	Total OPEB Liability	\$ 155,598	\$ 173,855

MID-AMERICA REGIONAL COUNCIL

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended December 31, 2025, MARC recognized OPEB expense of \$8,764. At December 31, 2025, MARC reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2025	
	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 109,266	\$ 16,258
Changes of assumptions	611	245,149
Contributions subsequent to the measurement date	—	—
Total	\$ 109,877	\$ 261,407

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31,	Net Deferred Inflows Of Resources
2026	\$ (18,053)
2027	(18,053)
2028	(18,053)
2029	(16,881)
2030	(20,392)
2031 & Thereafter	(60,098)
Total	\$ (151,530)

F. Subsequent Events

On October 13, 2025, MARC entered into a new lease agreement for a 48,623 square-foot office facility in Downtown Kansas City, Missouri. The lease term is for 10 years and 5 months, commencing on July 1, 2026. This agreement will be reflected in MARC’s financial statements beginning in the 2026 reporting period.

STATISTICAL SECTION INDEX

The goal of the statistical section is to provide the reader with additional information regarding MARC's economic condition. This information is helpful to understand and assess how MARC's financial position has changed over time. In addition, the information provides a context for understanding how MARC operates.

The schedules and tables are listed below with a brief explanation of the purpose.

	Table	Page
Financial Trend Data		
Net Position by Component, Last Ten Fiscal Years This schedule summarizes net position by component for the past ten fiscal years. It includes information on capital assets and unrestricted assets.	1	71
Changes in Net Position, Last Ten Fiscal Years This schedule summarizes the changes in net position along with detailed information on revenue and expenses for the past ten fiscal years.	2	72
Fund Balances of Governmental Funds, Last Ten Fiscal Years This schedule summarizes the changes in fund balances the past ten fiscal years. It includes information on nonspendable, committed and unassigned fund balances.	3	74
Changes in Fund Balances, Governmental Funds, Last Ten Fiscal Years This schedule summarizes the fund balances along with detailed revenue and expenditure changes over the past ten fiscal years. Also included is the percentage of debt service to non-capital expenditures.	4	75
Revenue Capacity Data		
Components of Own-source Revenues, General Fund, Last Ten Fiscal Years This schedule summarizes the principal non-grant revenue by its source for the past ten fiscal years.	5	77
Principal Revenue Payers – Local Government Appropriations, 2014 and 2023 This schedule summarizes the revenue by principle payer for member local appropriations for this fiscal year as compared to 2014.	6	78
Debt Capacity Information		
Ratios of Outstanding Debt by Type, Last Ten Fiscal Years This schedule summarizes capital lease obligations as a percent of personal income and per capita for the past ten fiscal years.	7	79

STATISTICAL SECTION INDEX, CONTINUED
